Legal Services Provider

Mission Statement:

"Middle Alabama Area Agency on Aging will serve as the Advocate and focal point for older individuals within the communities of Blount, Chilton, St. Clair, Shelby and Walker Counties."

Vision:

Middle Alabama Area Agency on Aging (M4A) will improve the quality of life for older individuals by working collaboratively with the local communities to develop and implement professional, quality programs and resources for these individuals.

Strategic Objective:

Middle Alabama Area Agency on Aging (M4A) will work in cooperation with local governments, organizations and individuals as the leading advocate and focal point of services older individuals and their caregivers in M4A region. As the Area Agency on Aging, M4A will monitor, evaluate, and comment upon all policies, programs, hearings, levies and community actions which will affect older individuals. M4A will be responsible for development of the Area Plan and following all guidelines as set forth for the AAA and Programs through the Older Americans Act and the Alabama Department of Senior Services. M4A will act as the advocate to secure Federal, State, Local and Private Funds for development and implementation of adequate programs and resources for older individuals and their caregivers.

Chairman, Board of Directors

Verification of Intent

The Area Plan on Aging is hereby submitted for the Planning and Service Area of Middle Alabama Area Agency on Aging for the period of October 1, 2002, through September 30, 2005. It includes all assurances and plans to be conducted by the Middle Alabama Area Agency on Aging under provisions of the Older Americans Act, as amended, during the period identified. The Area Agency on Aging has been given the authority to develop and administer the Area Plan on Aging in accordance with all requirements of the Older Americans Act, and is primarily responsible for the coordination of all Area Agency on Aging activities related to the purposes of the Older Americans Act, i.e., the development of comprehensive and coordinated systems for the delivery to older persons of supportive services, including multipurpose senior centers and nutrition services, and to serve as the effective and visible advocate for the elderly within the Planning and Service Area.

This plan is hereby approved by the Board of Directors and constitutes authorization to proceed with activities under the Plan upon approval by the Alabama Department of Senior Services (ADSS).

The Area Plan on Aging hereby submitted has been developed in accordance with all State and Federal statutory and regulatory requirements.

Mike Bowling, Chairman, Board of Directors
For Middle Alabama Area Agency on Aging

Executive Summary

Executive Summary

The Middle Alabama Area Agency on Aging (M4A) serves Blount, Chilton, Shelby, St. Clair and Walker counties. According to the 2000 Census, these five counties have a general population of 369,365. The total 60+ population for the M4A service area is 57,679. This represents 16% of the total population of M4A's planning and service area. From 1990 to 2000, the growth rate in all age groups has increased for the M4A area. It is apparent from the 2000 census figures that the service area will have a significant increase in the 60+ population as the baby boomers start to turn 60. The largest percentage of growth is in the 45-54 age groups. The attached graphs show the growth increases for the 60+ population through year 2015.

This three year Plan (2003-2006) was developed through a coordinated effort of the citizens from each county and represents thoughtful, long-range reflection and planning with special emphasis on identifying and establishing a coordinated system for the delivery of services to older individuals. The Plan offers an analysis of conditions in which this area's elderly live and of service needs, identification of present resources and gaps in service, and includes goals to address identified needs.

This Plan was developed by seeking information and input from interested persons through: a needs survey; participant and community inquiries; church surveys; Advisory Council Planning sessions; Board and staff strategic planning meetings; and public hearings which were advertised as Community Roundtable Discussions.

In the past, M4A's collaboration with county governments focused mainly on matching funds for Title III to support the congregate and homebound meals and transportation services through the M4A contracts for services delivered out of the senior centers. County funding was secured to utilize as the local match for federal and state dollars. Whereas this local match for Title III funding from the Older Americans Act is still a vital function of our contract with the county commissions, we are currently being allotted more federal and state dollars to provide new and expanded programs which will provide additional valuable services to the 60+ population and to their caregivers in the M4A service area. The Area Agency on Aging also provides information and assistance to local contractors who receive dollars on the local level through contracts with M4A and to other private, nonprofit and governmental agencies providing services to the 60+ population. The AAA will provide the following support and services to the local communities:

Provide County programs with financial support by way of Federal and State monies from the Older Americans Act for services to be rendered through private and nonprofit organizations for the senior citizens of Blount, Chilton, Shelby, St. Clair and Walker Counties. M4A will strive to contract and utilize vendors and hire employees living in the M4A Service Area to keep funds stimulating our local economies.

- Provide to residents of M4A Counties services available by way of Federal and State monies for Home & Community Based Medicaid Waiver Slots which provide services to homebound and disabled residents to remain in their own homes when they qualify for Nursing Home Services. Currently 37 slots for services are allotted to each County.

- M4A will provide information and assistance, outreach and education, Legal Services, Insurance Counseling through the SHIP Program, Caregiver Resources through Alabama Cares and the Alzheimer's Grant, Medication Assistance through the SenioRx Program, Long-Term Care Consultation and complaint investigation through the Ombudsman Program, Nutrition Consultation from a Contracted Registered Dietitian to the citizens of Blount, Chilton, Shelby, St. Clair and Walker Counties and the Senior Nutrition Sites.
- In cooperation with agencies, organizations, and individuals participating in activities under the Area Plan, M4A will serve as the advocate, planning and development agency and focal point for older individuals within the counties by monitoring, evaluating, and commenting upon all policies, programs, hearings, levies and community actions which will affect older individuals.
- Develop an Area Plan with goals and objectives for the implementation and development of programs and services for those over 60 in the M4A service area (Shelby, St. Clair, Walker, Blount and Chilton Counties).

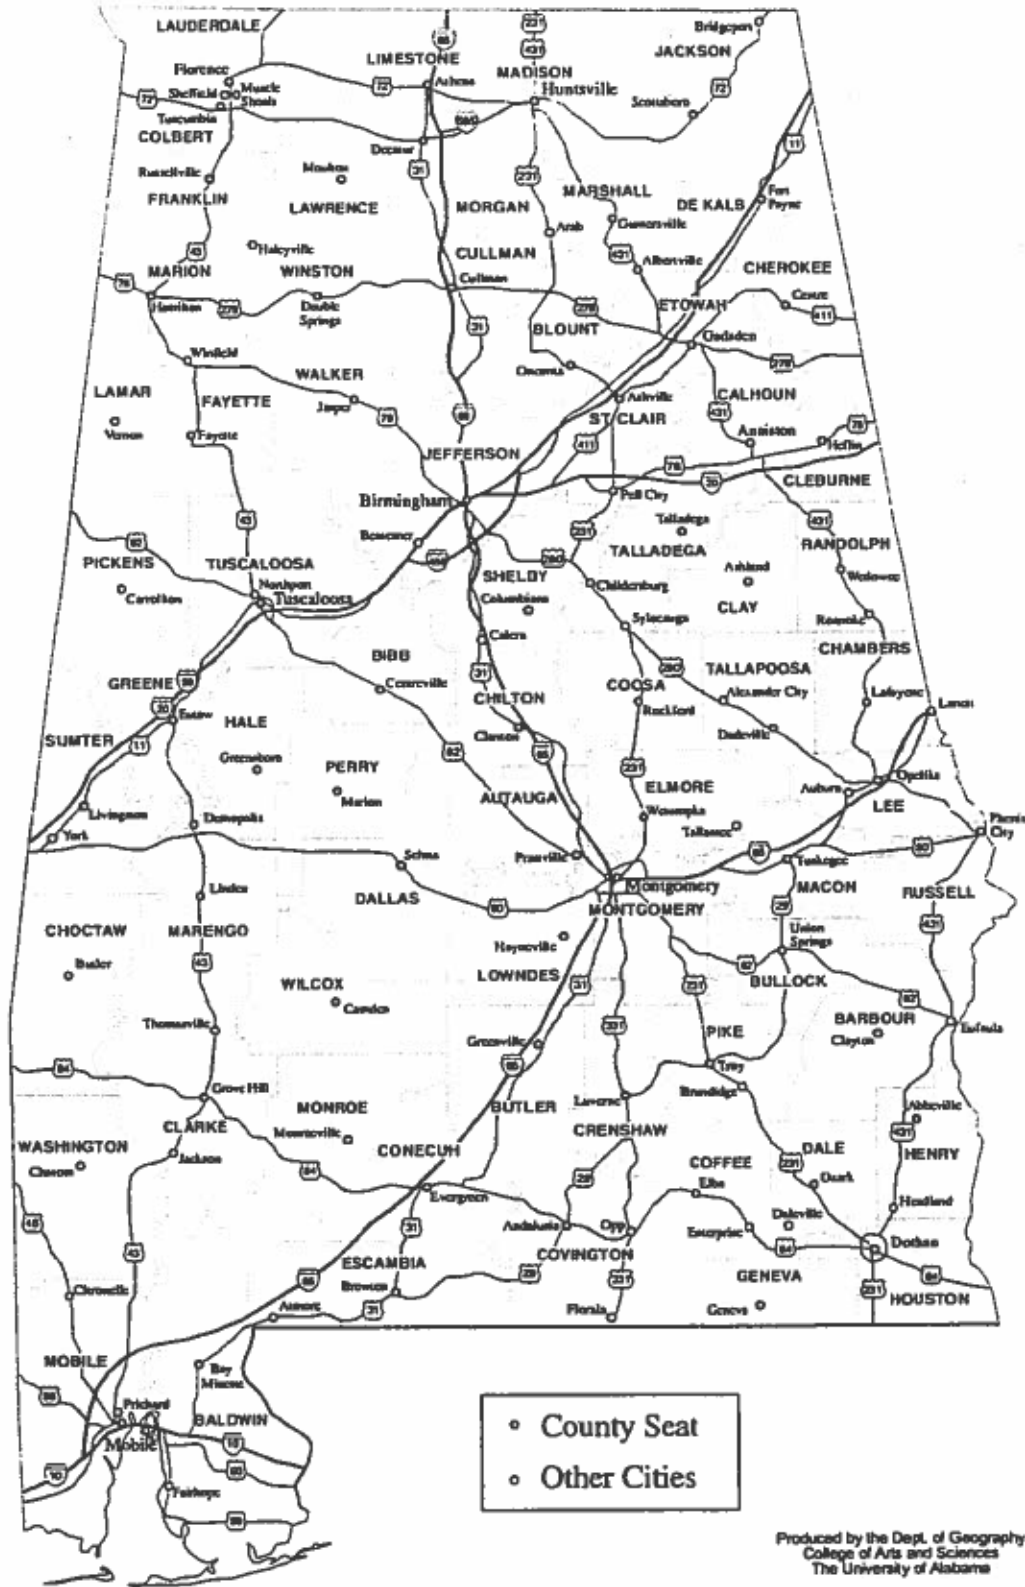

At the end of this three year period, it is expected that the Plan will result in an increasingly coordinated system of services which will assure a more cost effective and efficient delivery of those services in the M4A area. It is further expected that the Plan will be useful to service providers who recognize that through coordination with each other, limited resources may be more effectively utilized.

To achieve the goals and objectives set forth, we must facilitate mission focused planning, good communication, relationship building and collaboration with other organizations and governmental agencies in the service delivery area. Development of programs is an on-going process which is never fully completed as needs continue to change. As the AAA accomplishes the goals and objectives set forth in this Plan, senior citizens, who have contributed so much to our communities, can achieve and maintain independence, be personally empowered and maintain their dignity.

ALABAMA

Alabama Counties and County Seats

BACKGROUND AND SCOPE

In 1965 Congress enacted the Older Americans Act to initiate local community projects to provide social services for person age 60 or older. Between 1965 and 2001, the Older Americans Act was amended thirteen times, with each amendment becoming more and more responsive to the changing environment of America's aging society. The Act recognizes and fosters the collaborative efforts needed to ensure that America's senior citizens are provided an opportunity to live their lives with the greatest possible degree of dignity and independence. The Act authorizes funding to each state for development of services for the elderly and requires that the state agency on aging divide the state into planning and services areas (PSA's), and designate an organization in each PSA to serve as an Area Agency on Aging to develop and administer plans for aging services in that PSA. The Act sets forth role of the Area Agency on Aging as an advocate for the elderly as well as a catalyst for the development of a comprehensive and coordinated community-based system of services for the elderly. According to the Older Americans Act, such a system shall:

- ◆ Have a visible focal point of contact where anyone can go or call for help, information or referral on any aging issue;
- ◆ Provide a range of options;
- ◆ Assure that these options are readily accessible to all older persons—the independent, semi-dependent and totally dependent, no matter what their income;
- ◆ Include a commitment of public, private, voluntary and personal resources committed to supporting the system;
- ◆ Involve collaborative decision-making among public, private, voluntary, religious and fraternal organizations and older people in the community;
- ◆ Offer special help or targeted resources for the most vulnerable older persons, those in danger of losing their independence;
- ◆ Provide effective referral from agency to agency to assure that information or assistance is received, no matter how or where contact is made in the community;
- ◆ Evidence sufficient flexibility to respond with appropriate individualized assistance, especially for the vulnerable older person;

- ◆ Have a unique character which is tailored to the specific nature of the community;
- ◆ Be directed by leaders in the community who have respect, capacity and authority necessary to convene all interested persons, assess needs, design solutions, track overall success, stimulate change and plan community response for the present and future.

The elderly represents one of the most rapidly growing groups within the population. The Administration on Aging released information in to better enable AoA and its partners throughout the aging network to effectively serve the elderly and their families and be better prepared for the challenges that lie ahead as the population grows older. This significant information detailed within the study includes the following data:

- ◆ By the year 2030 there will be about 70 million older people, more than twice their number in 1996. The 85+ population is projected to increase from 3.8 million in 1996 to 8.5 million in 2030.
- ◆ Minority populations are projected to represent 25% of the elderly population in 2030, up from 13% in 1990.
- ◆ The median income of older persons in 1996 was \$16,684 for males and \$9,626 for females. After adjusting for inflation, the figures represented a decrease of 1.7% in "real" income for men and 0.1% for women.
- ◆ The major source of income for older couples and individuals in 1996 was Social Security (reported by 92% of older persons), income from property (reported by 66%), public private pensions (reported by 32%), earnings (reported by 16%), and public assistance (reported by 5%).
- ◆ About 3.4 million elderly persons lived below the poverty level in 1996. Another 2.4 million or 7.6% of the elderly were classified as "near poor" (income between poverty level and 125% of this level). In total, almost one-fifth (18.4%) of the older population was poor or "near poor" in 1996.
- ◆ Older people accounted for 38% of all hospital stays and 48% of all days of care in hospital in 1996.

According to the Older Americans Act, "The Area Agency on Aging shall be the leader relative to all aging issues on behalf of all older persons in the planning and service area. This means that the Area Agency shall proactively carry out, under the leadership and direction of the State agency, a wide range of functions related to advocacy, planning, coordination, inter-agency linkages, information sharing, brokering, monitoring and evaluation, designed to lead to the development or enhancement of comprehensive and coordinated community-based systems in each community in the planning and service area. These systems shall be designed to assist older persons in

leading independent, meaningful and dignified lives in their own homes and communities as long as possible.

The Area Agency on Aging shall serve as the public advocate for the development or enhancement of comprehensive and coordinated community-based systems of services in each community throughout the planning and service area. In carrying out this responsibility, the area agency shall:

1. Monitor, evaluate, and where appropriate, comment on all policies, programs, hearing, levies and community actions which affect older persons;
2. Solicit comments from the public on the needs of older persons;
3. Represent the interest of older persons to local level and executive branch officials, public and private agencies and organizations;
4. Consult with and support the State's long-term care ombudsman program; and
5. Undertake on a regular basis activities designed to facilitate the coordination of plans and activities with all other public and private organizations, including units of general purpose local government, with responsibilities affecting older persons in the planning and service area to promote new or expanded benefits and opportunities for older persons.

Each Area Agency on Aging shall undertake a leadership role in assisting communities throughout the planning and service area to target resources from all appropriate sources to meet the needs of older persons with greatest economic or social need, with particular attention to low income minority individuals.

The Middle Alabama Area Agency on Aging (M4A) is the grantee agency designated by The Alabama Department of Senior Services (ADSS) as the Area Agency on Aging for Blount, Chilton, Shelby, St. Clair and Walker Counties. M4A enters into a grant agreement with ADSS and a contract agreement with the County Commissions for each county in the 5 county service areas to match funding and to act as the planning and development agency for senior services.

Seniors and Families

MIDDLE ALABAMA

AREA AGENCY ON AGING

The Middle Alabama Area Agency on Aging (M4A) is Alabama's 13th Area Agency on Aging. In January 1989, this area was designated as the planning and service area for older persons in Blount, Chilton, Shelby, St. Clair and Walker counties. (Exhibit #) Because of its responsibility for leadership in determining the needs of the 60+ population and their caregivers, M4A has undertaken frequent and varied means of designing programs which will result in the pooling of funds and resources. The increase in census figures for the 60+ population requires that we do intensive planning and collaboration in the future to appropriately meet the needs. Funding allocations must be revised as we recognize the full impact of the current data. Attached are graphs showing the population growth for each individual county served by M4A. Exhibit # Intensive Long Rang Planning collaboratively with local governments will occur during 2003-2004. M4A will study the most cost-efficient, user friendly and comprehensive service delivery system to ensure that seniors will receive individualized professional services to improve the overall quality of life for senior citizens.

The M4A offices are located at 307 7th Street North, in Clanton, Alabama. This is in Chilton County. Plans are underway to move the M4A offices to a more centralized location in Shelby County. This move should be complete by 2004. Financial support is received from county, state, federal and private sources with the majority of funding coming from federal sources that must be matched with state and local dollars. To adequately serve more individuals and those who "fall in the service cracks," we will seek more private, corporate and foundation funds to expand the services offered by M4A and its contracting partners.

M4A has grown extensively in the past year. The Executive Director will focus on educating community leaders and the public at large as to the growing senior population and the need for more local and private in-kind and financial support to expand services to meet the growing demand. Priority emphasis will also be given to the development of a community-based volunteer support program to provide education, socialization and supplemental services to seniors needing assistance and companionship.

Public Comments and Strategic Planning

This Plan was developed by seeking information and input from interested persons through: a needs survey; participant and community inquiries; church surveys; Advisory Council Planning sessions; Board and staff strategic planning meetings; and public hearings which were advertised as Community Roundtable Discussions.

The staff of M4A has spent the last year seeking guidance and suggestions from a variety of interested persons to develop the goals and objectives for the programs and service areas. These various planning sessions have proven to be very effective for planning and also very empowering for the seniors and service providers in the M4A service area. Comments indicate an important need to educate the general public, service providers and governmental entities of the role and services provided by the AAA. Establishing good relationships and means of communication are vital to M4A accomplishing these goals and objectives.

In planning we used various tools and philosophies concentrating on dreams, accountability and positive outcomes. Generally, it is believed that money is not a solution to all problems; therefore, we tried to concentrate some of our efforts on determining what needs can be met by utilizing existing resources and thinking about creative solutions to problems. We focused on top needs, dreams for the future, solutions and obstacles that could prevent success.

The Advisory Council is working on a planning process called PATH or Planning Alternative Tomorrows with Hope. The Document is attached with some of the goals and objectives already in the process of being accomplished.

The Board of Directors met for a planning session on March 13, 2002 and came up with the following needs for the agency and service area:

Top 6 M4A Needs

1. Funding Formula
2. Offering Program support for Recreation, Volunteers, etc.
3. Determine "voids" in services
4. Advertise Program: Agency Toll Free Number
5. Building Local Relationships
6. Director Presence at Commission Meetings

Top 6 Needs in the Counties

1. Funding
2. Socialization/recreation
3. Volunteer Programs
4. Transportation
5. More Local/County involvement in Programs
6. Education/understanding on local level of Programs, funding, Needs

The results of the roundtable discussions which were a community discussion of needs and solutions to problems were as follows:

St. Clair County Roundtable: Top 16 Needs

Cost Money:

- Transportation
- Medication Assistance
- Meals
- Housing
- Energy Assistance
- Legal Services
- Healthcare
- Insurance Counseling

Take Heart, Hard Work, Human Compassion

- Volunteer
- Group Centered Planning
- Education: Legal, Insurance, Fraud
- Financial, etc.
- Consumer Protection

Chilton County Roundtable: Top 16 Needs

Cost Money:

- Transportation
- Medication Assistance
- Multi-purpose Center
- Housing
- Respite Care
- In-Home Mental Health Therapy
- Recreational Therapy
- Supplemental Services

Take Heart, Hard Work, Human Compassion

- Companion Services
- Education
- Advocacy
- Telephone Reassurance
- Pro-Bono Attorney
- Friendly Visits
- Structured Support Groups
- Volunteer Assistance

Blount County Roundtable: Top 16 Needs

Cost Money

- New Kitchen
- New Senior Center
- Medication Assistance
- Transportation out of the county
- Senior Newsletter
- Geriatric Doctors
- Meals

Take Heart, Hard Work, Human

Compassion

- Dating Service
- Education
- Volunteers
- Durable Med. Equip. "Closet"
- Telephone Reassurance
- Friendly Visits/ Companions
- Recreational Activities
- Advocacy

Walker County Roundtable: Top 16 Needs

Cost Money

- Transportation
- Rural Outreach
- Medication Assistance
- Increase the number of meals served
- Respite Care
- Homemaker Services
- Adult Day Care
- Utility Assistance

Take Heart, Hard Work, Human

Compassion

- Volunteer Delivery
- School Projects
- Telephone Reassurance
- Church Involvement
- Support Groups
- Information Sharing
- Advocacy
- Education

Shelby Roundtable: Top 16 Needs

Cost Money

Centers with Adequate Staff
Transportation
Medication Assistance
Recreational Activities
Homemaker Services
Legal Services
Education/Volunteer Training
Community Based Medical Care

Take Heart, Hard Work, Human Compassion

Good Communication
Collaboration/
Utilization of existing resources
Education/Public awareness
Website
Telephone Reassurance/Friendly visits
Development of more volunteer programs
Bilingual service
Care Teams

Obstacles:

- Lack of Money
- Public Awareness
- Current Policies
- Services not available or not covered
 - Lack of political collaboration
 - Bureaucracy: Red Tape
- Need for more information/education
- Lack of volunteer infrastructure

- Cities do not collaborate and communicate
 - Poor Communication

Solutions

- Reimburse travel expenses for transportation volunteers
- Good Samaritan law change
- More information out: Collaboration with Library
- Start Educating early: School age children
- Collaborate with Churches
- Medication Outreach: Brown Bag Approach
- Advocacy
- Share information gathered with politicians and public officials
- Education
- Better communication
- More political involvement
- Coordination/Collaboration
- Increase Awareness
- Advocacy & Advocacy Training
- Volunteer Support
- More grassroots involvement
- Staff Training at all levels
- Better Information & Assistance
- Team approach to providing services

The Survey Instrument attached in Appendix was answered by 314 individuals in the M4A service area. The results are attached.

Challenges for Middle Alabama

- 43% Increase 60+ by 2005
- Rural Area
- Transportation
- Work Force
- Poor History for planning, collaboration, and communication
- Scarce health and social service resources

Economic Impact of Area Agency on Aging for 2002

M4A'S ECONOMIC IMPACT IN SHELBY COUNTY 2002

The Agency is directed by a Board of Directors comprised of the County Commission Chairman and two Commissioners or their appointees from each county. The Board of Directors is the governing authority for M4A. The Board of Directors is responsible for the hiring and supervision of an Executive Director who is responsible for the supervision of the staff, program development, funding accountability and overall day-to-day operations of the AAA. The Advisory Council, an advocate for the constituents, offers advice and direction to the Executive Director: The Staff at M4A are as follows:
M4A Staff as of 10/01/02

Julie Oetting-Miller	Executive Director
Leonard Ross	Fiscal Officer
Betty Thornburg	Administrative Assistant
Mary Joyce Gilliland	Receptionist/Clerical Assistant SeniorRX
Jeonna Pilling	Information Specialist/Receptionist
Christal Hill	Lead MWS Case Manager
Jennifer Staggs	MWS Case Manager
Arnita Hicks	MWS Case Manager
Tracie West	MWS Case Manager
Tommie Crouch	MWS Case Manager
MWS Case Manager	Vacant
Leah Bond	Alabama Cares Coordinator
Nutrition Services Coordinator	Vacant
Cynthia Bodiford	Registered Dietitian – Consultant
Mary Lou Hamrysak	Ombudsman
Grace Hansen	SHIP Coordinator
Carolyn Fortner	Legal Services Attorney
Beverly Agee	Information & Assistance Coordinator
Jessica Santiago	SenioRx Coordinator
SenioRx Assistant	Vacant

The Middle Alabama Area Agency on Aging (M4A) under the leadership and direction of the Alabama Department of Senior Services (ADSS) works closely with contractors, service providers and community leaders within the planning and service area to serve older persons. A concerted effort is made to include those who are in the greatest social and economic need with emphasis on services to low-income minorities and to the rural elderly. Under the guidance and direction of M4A, these targeted groups of older persons are enlisted in new and existing programs. Older persons requesting services from existing services are being served as evidenced by little or no waiting lists for our programs. Providers continue to meet many service needs with little or no increase in funding.

Actions implemented to reach targeted senior citizens include outreach, nutrition services and in-home services such as homemaker and homebound meals in underserved areas. M4A recognizes the need to reach many more targeted older persons with an intense, community-based awareness campaign. Service providers are being instructed to start implementing waiting lists, as they will increasingly experience difficulty meeting the demand for services with their current funding sources. Service providers are also instructed to develop a plan of action; including alternate fund development, to meet the increase demand for services.

M4A focuses on providing assistance with efforts toward an improved and informed educational approach to assist seniors, caregivers and care providers in understanding how to access resources, how to become self-empowered and what local community-based resources are available to them. Assistance with follow-up is provided as needed. The AAA has a toll free number, which assists in making services easily accessible to all. Ombudsman Services, Legal Assistance and the Insurance Counseling Program provide direct help and support in managing affairs of persons needing or planning for long-term care. This is an invaluable service to targeted persons and their caregivers.

Positions of leadership for minorities on the Advisory Council and Board of Directors strengthens the overall role and effectiveness of the Area Agency on Aging in being able to meet the needs of minorities. In addition, the AAA complies with the USDA and all federal regulations as an equal opportunity provider and employer. M4A recognizes the ever-increasing number of Hispanics in the M4A service area and is working to develop a plan and materials to address this target population. M4A is fortunate to also have two bilingual staff members to assist programs with communication.

Middle Alabama Area Agency on Aging

Organizational Chart

THE ADVISORY COUNCIL

The Middle Alabama Area Agency on Aging Advisory Council is composed of community resource persons from throughout the five county areas who are interested in the needs of the local senior population and their related programs. The Advisory Council performs the following functions:

1. The Advisory Council serves as a vehicle for public input into the operation of the area agency and its programs.
2. The Advisory Council acts as a political advocate for the area agency and its programs and lobbies local and state political leaders.
3. The Advisory Council serves as a clearinghouse for information related to aging programs.
4. The Advisory Council reviews and makes recommendations regarding aging related grant applications and projects in the five county areas.
5. The Advisory Council presents a unified voice in securing its funds, both public and private, for the Area Agency on Aging and its contractors to support and increase services.
6. The Advisory Council shall consist of six members from each of the five counties whose overall composition shall meet minimum criteria as stated in the Older Americans Act of 1965, as amended. These members will assist in making known the issues and concerns of the elderly to appropriate individuals and organizations.

MIDDLE ALABAMA
AREA AGENCY ON AGING

*COMPOSITION OF ADVISORY COUNCIL MEMBERS

NAME	AGE 60 & OVER	REPRESENTATIVE OF OLDER PERSONS	MINORITY MEMBERS	HEALTH CARE REPRESENTATIVE LIST ORGANIZATION	SUPPORTIVE SERVICE REP. LIST	LEADERSHIP EXPERIENCE PRIVATE/VOLUNTARY	LOCAL ELECTED OFFICIALS
BLOUNT	XXX	XXX	X	X	XX	XXXX	XX
CHILTON	XXXX	XX		X	XXX	XXXX	XX
SHELBY	XXXXX	X	XX	X	XXXX	XXXXX	X
ST. CLAIR	XXXXX	X	X	X	XXX	XXXXX	X
WALKER	XXXXX	X	XXX	XXX	XX	XXXX	X

* The Advisory Council shall include individuals and representatives of community organizations who will enhance the leadership role of the Area Agency on Aging in developing community-based systems of service. Note that one person can be listed in several areas and also some areas may not have anyone from your county. It is the total overall make-up from all five counties of which the Middle Alabama Area Agency on Aging is concerned. Persons serving on the Middle Alabama Area Agency on Aging's Executive Board are not eligible to serve on the Advisory Council.

Blount County 60+ Population Growth

Blount County 60+ Population: Percentage of the County Population

PHYSICAL DESCRIPTION: BLOUNT COUNTY

Blount County lies in a climate with warm summers averaging 80 degrees and relatively mild winters averaging 43 degrees. The area has negligible snowfall. The rainfall averages about 54 inches per year. Relative humidity averages about 70 percent.

Blount County is located in the Cumberland Plateau with valleys extending northwest, and a mountainous terrain in the central section of the county. There are several major topographic features such as: Sequatchie and Murphree's Valleys, Sand Mountain, and Blount Mountain. It is drained in a southwesterly direction by tributaries of the Black Warrior River.

As the case is with most non-urban counties, Blount County's population declined slightly between 1940 and 1960. Beginning in the 1970's, Blount County's population began to steadily increase due to suburban development. The 1990 and 2000 census confirms this trend is continuing. The City of Oneonta is Blount County's largest municipality, holds the County Seat, and has a resident population of 5,576. Over half of the population resides in unincorporated areas, whereas the remainder lives in one of the twelve municipalities.

Blount County has many unique tourist attractions. These attractions include the historic covered bridges and Rickwood Caverns State Park, Palisades Park which is owned and operated by Blount County provides scenic views and passive recreation, there are many water based recreations offered by Inland and Highland Lakes, nine municipal parks, and numerous ball fields.

Blount County has housing units of 21,158 of which 16.6 percent are rented, and six percent are substandard. Owner occupied units have a median value of \$86,800. The housing is single family detached. Multiple housing is found in some of the towns, mostly in Oneonta.

Blount County school system is one of two county school systems in the State, accredited by the Southern Association of Schools and Colleges, as is the Oneonta School system. The Blount County Board of Education operates six high schools, four of which also house elementary schools. The Allgood Learning Center is a special education facility serving the entire County, as does the Blount County Area Vocational Center.

The city of Oneonta owns and operates its school system, serving grades K-12. It is fully accredited and offers course work ranging from vocational to college preparatory. There are a number of two and four year colleges located within commuting distance of Blount County, the closest being Jefferson State and Snead Junior College.

Blount Memorial, located in Oneonta, is the only full service hospital, and employs a staff of 172 individuals. It offers a wide range of services including an intensive care unit,

pharmacy, blood bank, respiratory and physical therapy, emergency room, and pediatric unit. There are three health clinics to serve the preventive and minor health needs of the rural population.

The Area Agency on Aging provides services to the elderly in Blount County serving both congregate and home delivered meals. Other services include some transportation, legal services, education, counseling, outreach, information and referral, and health insurance counseling. Senior centers are located in the towns of Blountsville, Nectar, Oneonta, and Snead.

Law enforcement is provided by the Blount County Sheriff's Department as well as the municipal police departments. Fire protection is provided to all but the most remote areas of the County by municipal and rural fire departments.

Measurements based on small denominators should be used with caution. Rates and ratios based on a denominator of less than 50 births or less than 1,000 population are noted by an asterisk. Births, abortions and estimated total fetal losses sum to the total number of estimated pregnancies. Estimated total fetal losses is not the same as the total number of fetal deaths. The total fertility rate is the sum of age-specific birth rates multiplied by the width of the age intervals, i.e. 5 years. A total fertility rate of 2,100 births per 1,000 females 10-49 years of age would maintain the current population. Population projections are provided by the Alabama State Data Center, Center for Business and Economic Research, University of Alabama.

¹Per 1,000 population.
²Total rate per 1,000 females 15-44.
³Age-specific rate per 1,000 females in age group.
⁴Percent of total births.

⁵Percent of all teen births.
⁶Per 100,000 population.

Chilton County 60+ Population: Percentage of County Population

PHYSICAL DESCRIPTION: CHILTON COUNTY

Chilton County has moderate climate with mild winters, with frost rarely penetrating the sub-surface soil more than six inches. The average annual temperature is 67 degrees; precipitation averages 55.62 inches per year.

Chilton County has a varied landscape, with most of the land favoring development because of the moderate slope characteristics and well drained soils.

Chilton County has a small population which has made a significant increase of 22.0 percent over the last decade. The City of Clanton, the County Seat, is the most populous area and one of four incorporated places in Chilton County where most of the people reside.

Chilton County has a total housing unit of 17,651 which are for sale or rent. Because of its ideal location on the west shoreline of Lake Mitchell, many have built lakeside cottages. The median household income is \$30,539; the average household size is 2.57 people per household.

The Chilton County Board of Education operates twelve elementary and high school facilities, one vocational school, and one facility for the severely retarded. The Wallace Community College-Selma has a branch located in Clanton. There are various universities, colleges, and junior colleges within commuting distance with the University of Montevallo being the most convenient.

The major recreation attractions in Chilton County are Lay and Mitchell Lakes. The County also has an organized YMCA program, municipal parks which offer swimming, tennis, ball fields, picnicking, and playgrounds. The Confederate Memorial Park consists of a restored confederate church, a cemetery, and a picnic area. The Talladega National Forest, which contains about 21,000 acres, is used for passive recreation opportunities.

Chilton County has a full service hospital which is well-staffed. There are thirty-two medical doctors, eight dentists, and forty-eight registered nurses serving the area.

The Area Agency on Aging provides nutritional services to elderly Chilton County residents on a congregate meal and limited home delivery basis. Other services provided include transportation, legal services, nutritional education, counseling, postal alert, escort outreach, merchant discount, information and referral, and health and welfare counseling. Senior centers are located in Clanton, Maplesville, and Thorsby.

Police and fire protection are provided by the municipalities and the Chilton County Commission. Unincorporated places are provided protection by volunteer fire departments.

Shelby County 60+ Population: Percentage of County Population

Shelby County 60+ Population Growth

PHYSICAL DESCRIPTION: SHELBY COUNTY

Shelby County has moderate climate in which the temperature reaches below freezing 37 days per year, and is usually uniform during most of the year. The average rainfall is 52.16 inches. Shelby County has very distinct landscape features including its coastal plains, mountainous, limestone valleys, and river bottoms. Commendatory terrain has promoted the construction of man-made lakes, as well as the development of Alabama's fastest growing county.

Shelby County is the fastest growing county in the State for numerous reasons, some of which include the suburban development in southern Jefferson County that has extended into northern Shelby County, and the availability of land for residential development attracts the relatively young and prosperous. The notable commercial and industrial growth has followed the population migration.

With such a high growth area, Shelby County is not faced with the problem of housing availability. About 10 percent of the housing units are for sale or rent due to the phenomenal number of housing started in single family detached, condominium/townhouse, and apartment units. The asymmetric number of new housing units has increased the value of owner occupied housing to a median of \$146,700 per unit.

The Shelby County Board of Education operates 32 primary and secondary school which also include one vocational education school, one school for the mentally and/or physical handicapped. Eighteen colleges, junior colleges and universities are located within commuting distance. The University of Montevallo is located in Shelby County.

Municipal parks are located throughout the county which offers team sports fields, swimming, tennis, playgrounds, and other public recreation activities. There is also Oak Mountain State Park which offers golf, hiking, fishing, boating, tennis, and swimming activities. There is a wide range of public water base recreations provided by the Coosa River and Lay Lake.

Shelby County has one full service hospital with a host of support staff.

The Area Agency on Aging provides services to elderly Shelby County residents in a congregate setting and also provides home delivered meals. Other services include some transportation, legal services, education services, counseling, outreach, information and referral, and health insurance counseling. Senior centers are located in Calera, Alabaster, Columbiana, Vincent, Birmingham, and Montevallo.

Police and fire protection services are provided by the municipalities and the Shelby County Commission. Volunteer fire departments provide fire protection for unincorporated areas.

Measurements based on small denominators should be used with caution. Rates and ratios based on a denominator of less than 50 births or less than 1,000 population are noted by an asterisk. Births, abortions and estimated total fetal losses sum to the total number of estimated pregnancies. Estimated total fetal losses is the not the same as the total number of fetal deaths. The total fertility rate is the sum of age-specific birth rates multiplied by the width of the age intervals, i.e. 5 years. A total fertility rate of 2,100 births per 1,000 females 10-49 years of age would maintain the current population. Population projections are provided by the Alabama State Data Center, Center for Business and Economic Research, University of Alabama.

¹Per 1,000 population.
²Total rate per 1,000 females 15-44.
³Age-specific rate per 1,000 females in age group.
⁴Percent of total births.

⁵Percent of all teen births.
⁶Per 100,000 population.

St. Clair County 60+ Population Growth

St. Clair County 60+ Population: Percentage of County Population

PHYSICAL DESCRIPTION: ST. CLAIR COUNTY

St. Clair County has moderate climate with temperatures reaching below freezing only thirty seven days per year, but the temperature is usually uniform during the rest of the year. The average rainfall is 48.5 inches per year. St. Clair has a varied landscape. The topography is favorable to development because more than half the County has a slope less than 10 percent.

St. Clair County had an increase in population of 47.4 percent between 1970 and 1980 due to expanding development from the Birmingham metropolitan area. The conveniences St. Clair County offer to growth and development also contributes to their growth.

St. Clair County has a housing unit of about 15,500, with two percent consisting of lakeside cottages, and more than 82 percent which are owner occupied. To react to the demand for housing, condominium, and townhouse construction has begun.

The Pell City school board operates six schools which consist of one school for special education, three elementary, one junior high, and one high school. The St. Clair County Board of Education operates 13 schools which consist of one for special education, six elementary, five high schools (three of which are K-12 grades), and one vocational school. There are eighteen colleges, universities, junior colleges located within commuting distance.

There are various municipal parks located in St. Clair County which provide organized team sports, swimming, tennis, picnic area, and playgrounds. There are three large camps/retreats such as Camp Tekawitha, Birmingham Baptist Camp, and Church of God Youth Camp. There is also a civic center, softball/baseball fields, and hunting. Many marinas, fishing areas, and overnight camping facilities which are located along Henry Neely Lake and Logan Martin Lake.

St. Clair County has a full-service hospital located in Pell City, which has the following licensed health-related staff members: ten doctors, seven dentists, one hundred twelve registered nurses, and eleven community nurses. St. Clair also has seven medical clinics.

The Area Agency on Aging provides nutritional services to elderly St. Clair residents on a congregate meal and limited home bound basis. Other services include some transportation services, legal services, nutritional education, counseling, postal alert, outreach, escort, merchant discount, information and referral, and health and welfare counseling. Senior centers are located in Ashville, Odenville, Pell City, Ragland, Steele, and Springville.

Police and fire protection is provided by the municipalities and the St. Clair County Commission. Volunteer fire departments provide fire protection to unincorporated area.

PHYSICAL DESCRIPTION: WALKER COUNTY

Walker County has a moderate climate in which the temperature only reaches below freezing 37 days per year, but is usually uniform during most of the year. The county lies within the state's Upper Plains climatological region, which has a moist, subtropical climate, mild winters, warm summers and ample precipitation throughout the year. The average annual temperature is 61 degrees F. The average rainfall is about 59 inches.

Walker County has a distinct landscape. The topography is contributory to development, because 56 percent of the County has a slope less than 20 percent.

Walker County had an increase in population of 4.5 percent between 1990 and 2000. Jasper is the largest municipality with a population of 14,111 and is also the county seat. Over half of the people reside in unincorporated places.

Walker County has 32,417 housing units with 80 percent of them owner occupied. The median value of housing is \$66,700. In urban locations in the County, construction of condominiums and townhouses are gaining in popularity.

The Walker County Board of Education operates 23 primary and secondary schools which includes a vocational education school, and an upgraded school for the handicapped. There are several colleges, universities, and junior colleges within commuting distance. UAB-Walker College and Beville State Community College are located within the County.

Walker County has fifteen municipal multi-use parks, several baseball/softball fields, tennis courts, recreation centers, and several hunting clubs. They are well known for their picturesque areas, delightful creeks and lakes. Bankhead National Forest offers camp sites and a game preserve. Musgrove Country Club, Arrowhead, Lake Side, Twin lakes, and Union Chapel golf courses, Lewis Smith Lake are major tourist attractions. Walker County Fishing Lake has a recreation complex.

The Area Agency on Aging provides nutritional services to elderly Walker County residents on a congregate meal and limited home delivered basis. Other services offered are some transportation, legal services, nutritional education, counseling, postal alert, outreach, escort, merchant discount, information and referral, and health and welfare counseling. Senior Centers are located in the Cities of Jasper, Cordova, Oakman, Sumiton and Carbon Hill.

Walker County has one full service hospital which employs over 650 on its staff. Walker County is also home to over 25 family practices and specialists.

Police and fire protection is provided by the municipalities and the Walker County Commission. Several volunteer fire departments provide protection for unincorporated areas.

Measurements based on small denominators should be used with caution. Rates and ratios based on a denominator of less than 50 births or less than 1,000 population are noted by an asterisk. Births, abortions and estimated total fetal losses sum to the total number of estimated pregnancies. Estimated total fetal losses is not the same as the total number of fetal deaths. The total fertility rate is the sum of age-specific birth rates multiplied by the width of the age intervals, i.e. 5 years. A total fertility rate of 2,100 births per 1,000 females 10-49 years of age would maintain the current population. Population projections are provided by the Alabama State Data Center, Center for Business and Economic Research, University of Alabama.

¹Per 1,000 population.

²Total rate per 1,000 females 15-44.

³Age-specific rate per 1,000 females in age group.

⁴Percent of total births.

⁵Percent of all teen births.

⁶Per 100,000 population.

Middle Alabama Area Agency on Aging Proposed Organizational Chart 2003-2006

Title III Community Services

COMMUNITY-BASED SERVICES

Senior citizens are able to maintain their independence and dignity within their communities and their own environment through community-based services. These are provided to an individual away from the home. In addition, these services include but are not limited to congregate meals, education, health screenings, transportation, recreation, employment, etc. These services are a part of the continuum of care that promotes independence and dignity of the older person. They provide the mental, emotional and social support to keep a senior person's mind, body and spirit active and engaged.

GOAL

Every older person shall have assurance that community-based services sufficient to meet their needs are available in the planning and service area.

CONGREGATE MEALS

The congregate meals program is one of the oldest programs provided by the Older American's Act. Persons 60 and older receive a nutritious meal served at one of M4A's 24 senior centers located throughout Blount, Chilton, Shelby, St. Clair and Walker Counties. These centers are typically open Monday – Friday and provide socialization and education through the various activities and programs provided at the center. The senior center concept of providing congregate meals provides much more than just a hot nutritious meal. The goal and purpose of the center is to offer many other benefits, such as recreation, decreased isolation and access to other services.

The seniors in the service area can remain mentally, physically, and socially independent through nutritionally balanced meals, socialization, and resourceful information. These services allow individuals to remain independent and still be active members of their community.

All AAAs have to review their congregate meal numbers in comparison to their homebound meal numbers. Centers will be required to have an average of 25 participants daily to remain open with Title III funds. Some service areas have a high number of homebound meals and a low number of congregate meals. St. Clair and Walker Counties are meeting the contractual requirements of having at least a daily average of 20 congregate participants per center in 2002 and will meet the criteria of 25 in 2003. With M4A's guidance, the following centers must develop a plan of action before October 1, 2002, to increase participation.

- Maplesville – Chilton County
- Thorsby – Chilton County
- Calera- Shelby County
- Columbiana – Shelby County

- Heardmont – Shelby County
- Vincent – Shelby County

M4A is working with the contract nutritionist to do a satisfaction and needs survey of center participants in the centers with low participation. This survey will be complete before October 1, 2002.

M4A staff and Advisory Council have identified several reasons why the congregate meals program is having difficulty with expansion. Lack of funds to support the increase need for transportation is one barrier. Site locations and environment may also contribute to the lack of participation. For example, seniors are interested in more activity than just bingo, dominos, etc. Advisory Council members advise that a multi-purpose senior center is needed with qualified staff providing programs and various forms of recreation. Current funding does not allow for this sophistication. M4A will work with local communities to pool resources and develop a plan to meet the recreational and social needs of those 60 years of age and older.

Future plans for Shelby County include building a Multi-Purpose Center at the new Park Complex being developed in Saginaw. This location is within a 10-15 mile travel distance from Alabaster, Columbiana, Calera, Montevallo, Helena, and Pelham. Plans would include these cities for future congregate meals and recreation. This project is in the planning stages with Shelby County, the City of Alabaster, the mayors in projected areas and Shelby Senior Services, Inc. Plans include a phasing in of participation from outlying areas with the City of Alabaster taking the lead. By combining the resources of four centers and community support, the center could offer more professional services catering to the social needs of the seniors in this area. Seniors will be utilized in the planning process to ensure that their local needs are met.

Shelby County will build a central kitchen with a 20 year projected growth in this complex for catering congregate and homebound meals in Shelby County. Long range plans include a multi-purpose center in a park complex in South Shelby County.

The city of Alabaster is working with M4A to build a facility in the same park complex to meet the growing needs of the AAA. This location will be permanent and centrally located for the M4A service area.

M4A will work with County Commissions and community leaders to plan for the future needs in Walker, Blount, Chilton, and St. Clair Counties. St. Clair County has committed partial funds for a new central kitchen. Blount County is reviewing the need for a new kitchen and multi-purpose center in Oneonta. Chilton County may choose to utilize the Clanton Center for all participants 2 times a week and serve at the Thorsby and Maplesville centers 3 days a week. This may increase participation and provide variety in programs. Walker County senior centers are well attended, but several centers are in need of updating and repairs.

GOAL

To provide persons 60 years and over with an opportunity for recreation and socialization in a congregate setting with a hot meal providing one-third recommended dietary allowance per day.

OBJECTIVES

- M4A will continue to employ a Registered Dietitian to evaluate meal service, plan menus meeting the current RDA, survey participants, educate and train staff and offer other technical and educational assistance to M4A and contractors.
- M4A and contractors will provide outreach in the local communities to encourage participation in the congregate meal program.
- M4A will offer technical assistance to contractors on program resources and educational materials for center participants.
- M4A staff will be required to visit centers to provide programs, motivation and technical assistance.
- M4A will use the Senior Centers as the focal point of senior programs.
- M4A will function as the planning agency working with local governments to plan for future growth and development of multi-purpose centers where appropriate.

TRANSPORATATION

Transportation service is provided as a support component to assist in meeting the needs of the 60 plus population within the planning and service area. Transportation serves as a connecting point for other services such as medical, customer services, nutrition and socialization.

It was noted in the public meetings, board meetings, and advisory council planning sessions and in needs surveys that transportation is one of the top priorities in the M4A service area. Many seniors are isolated due to the lack of access to transportation and many are unable to access much needed healthcare services.

Presently, the primary providers of transportation along with contract service providers are the Retired Senior Volunteer Program, Community Action, and Section 18. Funding restrictions have not impacted the quality of service provided but have restricted the expansion of much needed transportation services. The need for an expanded transportation network that can transport over county lines will increase as the population grows older.

GOAL

To increase public and private transportation options to seniors for healthcare, recreation, socialization and personal needs.

OBJECTIVES

- To act as an advocate for seniors and persons with disabilities to educate public officials about the need for a coordinated transportation system.
- The Middle Alabama Area Agency on Aging will advocate for increased funds and local support.
- The Middle Alabama Area Agency on Aging will work with the Silver Haired Legislature and other advocates to develop a strategic plan to resolve some of the transportation problems.
- M4A will work with volunteer organizations and churches to develop and expand ride sharing and individual and volunteer transportation escorts.
- The Middle Alabama Area Agency on Aging will work with groups to develop ways of maximizing the use of vehicles including the evaluation of the cost effectiveness of refurbishing vehicles as opposed to purchasing new ones and the utilization of vans opposed to automobiles.
- M4A will study the option of finding private funds to reimburse volunteers for transportation.

Assisted Transportation

Many older individuals due to physical or mental incapacities may not be able to perform all activities of daily living without some assistance. Included would be activities which require leaving the home such as attending a senior center, doctor visits, shopping, paying bills, etc. Escort/companion services are very limited in the service area. Contractors report serving 91 clients 8,795 units of assisted transportation for the first nine months of 2002. Advisory Council members and community participants in roundtables concluded that one of the main problems in the area of assisted transportation is that fewer individual volunteers are willing to participate because of their personal liability (i.e., from an automobile accident or other personal injury to the client). Fear of liability is also a problem for volunteer transportation.

GOAL

Frail elderly in the M4A service area will have options for the assisted transportation and escort services they may need to help them remain independent in their own home.

OBJECTIVES

- M4A will continue to contract for assisted transportation.
- M4A will assist the Silver Haired Legislature in the development of a Good Samaritan law for volunteers transporting elderly individuals.

- M4A will advocate for laws passed to protect individuals volunteering to transport seniors.
- M4A will assist communities in developing options for escort/assisted transportation.

Education/Health Prevention

Senior Centers are to promote the well-being of older persons through a variety of group activities and educational programs to enhance the quality of life. Senior centers will provide education on topics such as nutrition, emergency procedures, consumer fraud, insurance and other related topics. M4A will work with contractors and other community service providers to promote the mental and physical well-being of seniors. To utilize funds more cost-effectively and due to the lack of appropriate providers to contract with in the M4A service area, M4A will request a waiver to provide some direct services for health prevention.

GOAL

All seniors in the M4A service area shall have access to adequate, affordable healthcare, including preventive care.

GOAL

All seniors in the M4A service area will have the opportunity to expand their knowledge through a variety of educational programs appropriate to their needs.

OBJECTIVES

- M4A will provide information on preventive healthcare to center directors to share with center participants.
- M4A will provide the media with information on preventive healthcare.
- M4A will provide the media, other community organizations, program staff and senior centers with health alerts on extreme weather conditions, food recalls, emergency procedures, etc.
- M4A will provide health information to older persons through a variety of sources to encourage wise choices in daily living.
- M4A will coordinate health fairs in the 5 county areas.
- M4A will work with other agencies to utilize existing community resources which encourage health prevention.
- M4A will work with The University of North Alabama to expand the Project Cheers program utilizing student nurses who make home visits and do health and depression screenings with homebound individuals for 6 week intervals.
- M4A will train staff on signs of depression and plans to include a depression screening in the universal assessment instrument to be utilized by M4A staff. Title

III funds will be used to train staff to identify and prevent depression and to teach staff to utilize the universal assessment tool.

HEALTH SCREENING and HEALTHCARE ACCESS

Health screening provides an opportunity for identification of health problems and monitoring of ongoing problems. County health departments and private healthcare agencies provide health screening on a regular basis at each congregate center.

Programs presented at the centers provide valuable information for participants on many areas of interest. An information and referral program is coordinated between community agencies, social service agencies, doctors, hospitals, health departments and the aging program to assist the adult at the congregate setting and those who are homebound.

The Middle Alabama Area Agency on Aging will assist contractors and other agencies in coordinating health service programs to the elderly in the 5 county areas to maintain good health, independence, and dignity in the home and in the community.

Transportation is often a barrier in the M4A region for individuals to receive the appropriate health care. Chilton and Shelby Counties transportation systems are the only service providers who can cross the county line. The inability of some transportation systems to cross county lines often precludes individuals from receiving a choice in healthcare and often the treatment necessary to prevent ongoing complications of health conditions.

There is a lack of geriatric health professionals in the 5 county areas. This often results in a lack of understanding by healthcare providers of the special needs of the geriatric population and can result in misdiagnosis and inappropriate care.

Good, individualized healthcare is necessary to maintain independence and dignity.

GOAL

Every older person shall have assurance that community-based services sufficient to meet their needs are available in the planning and service area.

OBJECTIVES

- Local healthcare providers will participate in health fairs and in routine visits to senior centers to monitor blood pressure, temperature and heart rates. If there is any unusual rate or problem, the individual will be advised to contact and consult the family physician.
- Programs on health education, mental health, and preventive medicine will be presented at the centers by movies, displays, speakers, and written materials. The health education programs are presented by social service agencies, public and private health agencies, civic groups, and librarians.

- M4A will educate local governments about the inadequate transportation systems and how they limit the individual's access to appropriate healthcare. M4A will advocate for support of adequate transportation that can cross county lines for medical care.
- Over the next 3 years, M4A will work with UAB School of Medicine and Professional Medical organizations to encourage geriatric doctors to start practices in the 5 county regions.

NUTRITION EDUCATION

Information regarding nutritional requirements, preparation, storage and low cost meals are helpful to participants. This information helps them to better spend their money and time more efficiently.

As a person ages, their nutritional requirements change. Educational programs will help seniors to make these changes economically and by following good health practices. Also as a person ages, sometimes they are less interested and less able, both financially and physically, to prepare meals. Programs on simple meals are beneficial.

These programs of nutrition education are currently provided by our contract Registered Dietitian. She provides, among other services, packets of nutrition education materials to each of the centers. Many center managers find good nutritional information to share with their participants.

RECREATION

Recreation is a necessary activity that keeps the mind alert and the body mobile. Recreational activities are provided at all the congregate sites in this planning and service area. These activities range from arts, crafts and games to county-wide social events.

Many of the elderly go to the congregate centers for the recreational activities. It provides them an opportunity to socialize with their peers, be competitive, share by working on projects, and provides a means to be involved. Some recreational activities are also educational and help to keep the mind stimulated.

Surveys and planning sessions indicate that many of our centers do not provide the participants with the level of activity they want. Participants want the activities that are provided to be expanded. They indicate that they would like to take more outside trips and to have center hours expanded to include some evening and weekend activities.

GOAL

For all Senior Centers in the M4A service area to provide a variety of activities to meet the mental, physical, spiritual and social needs of the participants.

OBJECTIVES

- Promotion of recreational activities at all the congregate centers within the 5 county area will be encouraged by M4A to improve overall health and social satisfaction of the participants. This should lead to prolonged independence and dignity.
- M4A will act as the planning and development agency to advocate for multi-purpose senior centers which are more conducive to planning a variety of activities and programs.
- M4A will plan a Karaoke and Dance Contest that will promote variety and evening activities in the 5 county areas. This activity will also involve community participants and act as outreach to get more seniors into the centers.
- M4A will provide some recreational objectives and training for county directors and center managers. Training will include proper documentation as to what is considered a recreational or educational activity.
- M4A will begin an incentive program for center managers to encourage more appropriate recreational activities.
- M4A will investigate the possibility of more collaboration with Parks and Recreation Departments and County Extension Programs.

EMERGENCY SERVICES

Maintaining an adequate emergency services system is essential, especially in the rural counties. These services are not only essential to the congregate centers but also to participants who are homebound. There must always be a system of coordination between emergency service agencies within the 5 counties. Many serious health and emotional complications during an emergency can be avoided by having a good plan in place that includes good communication and collaboration with other resources.

This service has immeasurable value. There is no measurement of how many times serious health, emotional or other complications have been avoided by alerting the proper agency in an emergency situation. The resource directory of all service agencies in this planning and service area will be updated and used to maintain an ongoing emergency referral service between each contractor and other agencies. The Middle Alabama Area Agency on Aging will implement its disaster plan in case of an emergency. The Middle Alabama Area Agency on Aging will promote the availability of emergency services in time of natural disaster for all older persons through the 23 senior centers in the planning and service area.

GOAL

To ensure the safety and well-being of all seniors in the M4A service area in the event of an emergency disaster or inclement weather.

OBJECTIVES

- Each contractor will be required to have a working agreement with the local fire and police department, rescue squad, hospitals, paramedics, Emergency

Management Services and other private and public healthcare agencies. "Calling trees" will be developed with staff and volunteer participation. Shelf staple meals will be provided in advance every 6 months for center participants to utilize in case of an emergency or inclement weather.

- To better prepared for the unexpected, the Middle Alabama Area Agency on Aging will provide technical assistance in coordinating emergency service with other agencies on a state and county level in an effort to expand the continuum of care for the elderly in the event of an emergency. The disaster plan will be updated annually and more often if necessary.
- M4A will stay connected with federal and state officials to provide updated information about National Security.
- M4A will provide educational materials to center participants, program participants and providers regarding emergency prevention and what to do in the event of an emergency or national security problem.

PHYSICAL FITNESS

Exercise is essential in maintaining good physical and mental health. Physical fitness can keep the body mobile and the mind alert. It is important that people be active in some form of physical activity or exercise, especially as they grow older.

The congregate centers in this planning and service area include physical fitness programs as part of their daily schedules. Some of the recreational activities at the centers are a form of physical fitness.

Included in the physical fitness programs are walk-a-thons, physical exercise, quilting, knitting, dancing, chair exercise and physical therapy set to music.

RESIDENTIAL REPAIR, RENOVATION AND CHORE SERVICE

Many elderly are living in homes that are in need of major repair. These homes are cherished by those occupying them. Most elderly are very reluctant to move from their homes. Finding resources to do major repair and renovation on a home has always been a difficult task for the Area Agency on Aging. This service continues to be of concern in this planning and service area as there are limited funds and resources to adequately reach all of the elderly that should be served.

GOAL

Every older person shall have assurance that community-based services sufficient to meet their needs are available for emergency repairs, low cost, reliable repair work, yard work and chore maintenance.

OBJECTIVES

- The Middle Alabama Area Agency on Aging will serve as an advocate for additional funds and resources to improve the homes of the elderly. This assistance will help in maintaining independence and dignity for older persons remaining in the home.
- M4A will work to establish a volunteer network to assist with home maintenance repairs and chore services.
- M4A will investigate the possibility of forming a 501(c) 3 Non-profit organization to accept funds to pay for emergency repairs. A screening committee would be established to screen and prioritize emergency situations.
- M4A will investigate receiving funds from United Way for home repairs and maintenance.
- M4A will track and measure the need for this service over FY 2003 through the information and assistance program.
- M4A will work with the Better Business Bureau and District Attorney's Consumer Fraud Division to refer problems associated with fraud and to educate senior consumers

ADVOCACY ASSISTANCE

A leading role of the Area Agency on Aging is to serve as an advocate for the elderly by making their needs known to those in a position to bring about public policy changes. Contacts are important for advocacy and include elected officials, state legislators and congressmen. The Executive Director will work with the Board of Directors, Advisory Council and Silver Haired Legislators to develop and maintain these contacts. Contacts with public officials are made through letter writing campaign efforts, friendly visits and inviting them to senior centers, special programs and community roundtables. Educational and advocacy efforts will enable public officials to adequately serve their senior constituents through legislating or amending laws, providing adequate funding and developing appropriate policies, etc., to meet the needs of the elderly.

The M4A staff and contractors are encouraged to serve on a variety of boards and committees sponsored by other community agencies. Through this service we are continually making others aware of the individual needs of the seniors in our service area and the programs provided by the AAA.

GOAL

M4A will serve as the leading agency for advocacy in the M4A area.

OBJECTIVES

- M4A will seek opportunities to learn of other programs and plans which benefit the elderly. This influences community action at the grass roots level.

- M4A will keep public officials informed of all needs and future plans concerning senior citizens.
- M4A staff will be encouraged to serve on boards, tasks forces and state and community committees and advisory boards.
- M4A will work with the Silver Haired Legislators on upcoming legislative agendas and grass roots advocacy training.
- M4A will be the lead agency for anyone needing statistical data concerning the demographics of the M4A service area.
- M4A will continue to hold community-based roundtables to address local issues concerning seniors and to promote interagency teamwork and collaboration.
- M4A will develop a task force to address priority program issues and problems of the underserved.
- M4A will expand and develop its leadership role as the focal point for senior advocacy.

HOME-BASED SERVICES

The National and State initiatives are to prevent expensive and undesired institutionalization by providing home and community-based services that adequately meet the physical, environmental, emotional, and spiritual needs of the individual. This allows individuals needing different levels of care to remain personally empowered and independent.

Home-delivered services are support services which are provided to an elderly person confined to his home for various reasons. Home-delivered services have been successful in keeping many elderly out of institutions. Through these services, the elderly person can maintain independence and dignity within his own environment, which is essential in the continuum of care during later years.

Home-based services offered in the M4A service area include homebound meals, friendly visits, telephone reassurance, Elderly and disabled waiver, caregiver support and home maker. If the individual meets the eligibility requirements, there should be a wide range of home-delivered services at their disposal.

Often there are elderly persons receiving homebound meals that need this service 7 days a week. As a result of this identified need, M4A and its service providers have made the weekend meal program available to these homebound elderly persons within the planning and service area. This service is provided to the elderly by request.

Visiting and telephone reassurance services continue to be a means of ensuring the safety and well-being of an older person. Organized through each senior citizen center, the program provides an opportunity for an elderly person who lives alone to receive a telephone call or visit on a regular basis.

Older persons who are homebound and unable to do light housekeeping tasks, such as washing dishes, making beds, cleaning bathrooms, dusting, changing linen, laundry, and etc., need assistance from a homemaker. Senior Aides, Green Thumb and the Department

of Human Resources have assisted with providing this service, although it is not sufficient to meet the demand. Reliable and dependable persons are difficult to employ for homemaker services. More creative ways to provide this service are necessary as assistance with these tasks enables the older person to remain more independent by living in his or her own home and not requiring nursing home care. M4A will work with others to determine reliable resources to fill this need.

There is a great need for adult day care and the need will increase as the older population grows. Adult day care provides care for the elderly in a supervised setting. Many caretakers of elderly parents are in the work force and cannot provide the daily care an elderly person needs. There is a need for more adult day care options in the M4A service area.

The current service delivery system in the State of Alabama and the M4A service area does not have an infrastructure in place to provide a variety of home-delivered services in a timely manner to those who need them. As the population grows, the need for these services and funding for these services will increase.

GOAL

Every individual in the M4A service area will have the option of remaining in their home with a community support system in place to meet their nutritional, physical, emotional, mental, and spiritual needs.

OBJECTIVES

- M4A will develop a service delivery system that is all inclusive and looks at the individual client's holistic needs.
- All homebound clients will be reassessed at least yearly to determine if they are able to attend a congregate meal program.
- M4A will contract to provide a minimum of 1,100 clients with homebound meals.
- M4A and its contractors will seek private and public donations to increase the homebound meal program by 5% each year.
- M4A will contract for homemaker services in the counties where the program is successful. M4A will develop a plan of action for how to best provide this service in areas that do not have the resources.
- M4A will receive training in the "care team approach" and in developing volunteer wraparound services for clients. Development of care teams will begin in January 2003.
- M4A will sponsor a regional care team training provided by the Care Team Network in December 2002.
- M4A staff will participate in systems change planning and development.
- M4A will work with providers, RSVP and other volunteer groups to provide telephone assurance and friendly visits to isolated and homebound seniors.
- M4A will begin a pen pal program with school groups for homebound seniors.

- M4A will advocate on behalf of homebound seniors to educate the public about needed resources.
- M4A will study the need for more adult day cares and will determine the feasibility of adult day care centers in future multi-purpose centers.

COMPREHENSIVE, COORDINATED SYSTEM

Various leadership, policies and bureaucratic restrictions often lead to a lack of communication and coordination among various service providers. This creates an atmosphere for clients that are not user friendly and often frustrating.

A growing problem is the way in which clients are processed. Technology has brought about many positive changes but these changes may create more frustration for the elderly. Many elderly people are unable to use voice mail systems. Many are not able to utilize computers for information. Seniors expect and deserve to speak to a live person who will listen with empathy and compassion. Many elderly persons complain that they are rushed through multi-page service application forms. Many complain of the length of time it takes to be served by various agencies and they feel lost in the system; perhaps due to limited time and diminishing staff, no one fully explains eligibility requirements, benefits, expected dates of service and other concerns the client has. This leads to even more stress and frustration for the client. Many applying for services feel intimidated and disrespected by the bureaucracy and give up trying to get help. Various guidelines and procedures are different for each service, complicating things even more. The future generation of baby boomers will expect more professionalism and fewer frustrations.

The AAA conducted roundtable discussions in all 5 counties and there are a number of recommendations the AAA can make regarding improvement of client services.

GOAL

Development of a cooperative, user friendly service delivery system to provide information and services to seniors and their caregivers.

OBJECTIVES

- M4A will continue to meet with service providers and other agencies to share information and ideas on how to better serve the aging population.
- M4A will work towards developing a community-based support system for seniors and their caregivers which will maximize funds and resources.
- M4A will commission a local task force to make recommendations regarding single point of entry and a uniform assessment tool.
- M4A will seek alternative funding to develop, track, and measure the benefits of single point of entry.
- M4A staff will be available to do presentations and in-services to inter-agencies on single point of entry, universal assessment, caregiver resources, medication assistance, etc.

- M4A staff will be cross-trained on various programs to provide more holistic service to clients.
- M4a staff and providers will be encouraged and trained to use the person centered approach to assessing clients' needs and providing services that are individualized and provide client choice.
- M4A will strive to have the best knowledge of all community-based resources.
- M4A will advocate eliminating duplication of services. Duplication of services is a waste of funds and manpower. Services should be better coordinated to minimize duplicated efforts. A uniform assessment is the first step to eliminate duplication of case management services.
- A centralized information and assistance data base and system will be in place by February 2003. Those in need or requesting information will telephone one central number to seek information and assistance. The information and assistance will be accessible, friendly and less frustrating than the current system.
- M4A staff and service providers will be expected to treat all seniors and their caregivers with respect, dignity and compassion.

M4A PROGRAM GOALS

State Health Insurance Assistance Program (SHIP)

On or about March 15, 2002, the Middle Alabama Area Agency on Aging's (M4A) contract for SHIP services with the law firm of Davis & Neal expired. According to the *Alabama SHIP Policy Manual*, "The Area Agency on Aging may provide the [SHIP] services directly from their office or contract with an outside organization provided there is no conflict of interest" (7). As of March 16, 2002, M4A has provided direct SHIP services.

Funding for the State Health Insurance Assistance Program is made available through the Centers for Medicare and Medicaid Services (formerly the Health Care Financing Administration or HCFA). The intent of the State Health Insurance Assistance Program is to strengthen the capability of states to provide all Medicare eligible individuals information, counseling, and assistance on health insurance matters. An eligible individual is defined as "a Medicare beneficiary who is 65 years of age or older, on Social Security Disability or has End State Renal Disease" (19). According to the *SHIP Grant Terms and Conditions*, Section 4360 of the Omnibus Budget Reconciliation Act of 1990 requires that each state SHIP program encompass all of the following activities:

- Counseling and assistance to eligible individuals in need of health insurance;
- Outreach;
- Systems of referral (including legal referrals);
- Establishing a sufficient number of staff positions (including volunteers) necessary to fulfill the terms and conditions of the grant;
- Assuring that all SHIP staff have no conflicts of interest;
- Collecting and disseminating timely and accurate information to SHIP staff;
- Training of SHIP staff;
- Coordinating the exchange of health insurance information; and

- Making recommendations to appropriate departments and agencies concerning consumer issues and complaints related to health care.

Under the *SHIP Grant Terms and Conditions*, M4A is required to submit a monthly financial report and program reports to the Alabama Department of Senior Services. Program reports include aggregated totals from client contacts; public and media activity; and resources. Other responsibilities of M4A include the following:

- Designate one staff member as the SHIP Coordinator;
- Provide SHIP outreach;
- Recruit, orient, train, and utilize volunteers in each region;
- Disseminate SHIP information to volunteers and the public;
- Monitor and evaluate the volunteer program; and
- Report to the State office.

M4A's SHIP program provides individual SHIP counseling, outreach, and a system of referral. Specific areas of SHIP counseling include Medicare, Medicaid, supplemental health insurance (including Medicare+Choice policies), QMB, SLMB, QI-1, QI-2, long-term care insurance, unnecessary health insurance, and referrals to the SenioRx Program and other appropriate drug programs.

SHIP Client Data March 2002-June 2002

158	Total Clients Served
282	Total Client Contacts
68	Clients with income less than or equal to SLMB (\$906.00/month individual)
114/44	Female/Male Client Ratio
	Client Ethnicity
128	White
7	Black
2	Latino
21	Not Collected
11	Outreach Events
296	Estimated Number of Attendees at Outreach Events

GOAL

To train and supervise SHIP volunteers

OBJECTIVES

- The SHIP Coordinator will meet with SHIP volunteers at least 3 times a year.
- The SHIP Coordinator will establish a system of regular communication between SHIP volunteers and THE AAA which will include in-person, electronic, written, and/or telephone communication with the SHIP volunteers.
- The SHIP Coordinator will designate, with in-put from other SHIP staff, the SHIP State Coordinator and with the agreement of SHIP volunteers, a person or persons who will help facilitate communication between THE AAA and SHIP volunteers.

GOAL

To recruit an adequate number of qualified SHIP volunteer

OBJECTIVES

- The SHIP Coordinator and staff will develop a volunteer program in Shelby County.
- The SHIP Coordinator and staff will increase the number of qualified volunteers in Blount, Chilton, St. Clair, and Walker Counties.
- The SHIP Coordinator and staff will actively encourage senior center managers and assistant managers to serve as in-kind SHIP volunteers.
- The SHIP Coordinator and staff (including volunteers) will utilize SHIP outreach events as opportunities to recruit qualified volunteers.
- The SHIP Coordinator and staff will target relevant professional organizations as sources for qualified volunteers.

GOAL

To increase outreach in our PSA, particularly in rural, low education/low income and minority areas

OBJECTIVES

- The SHIP Coordinator, staff and volunteers will establish a regular schedule for outreach at the senior centers.
- The SHIP Coordinator, staff and volunteers will collaborate with other agencies and departments to identify other opportunities for outreach, public speaking, presentation, and information sharing in our PSA.
- The SHIP Coordinator, staff and volunteers will identify focal points in rural, low education/low income and minority population areas for outreach events.

- The SHIP Coordinator will contact organizations, such as churches and other non-profit organizations which predominantly serve minority populations, and establish relationships with these organizations.
- The SHIP Coordinator will work with other agencies, such as the Department of Human Resources, the Health Department, etc., to identify opportunities to increase awareness of SHIP services available to rural, low education/low income and minority populations.

GOAL

To increase the distribution of Medicare/SHIP printed materials to the public.

OBJECTIVES

- The SHIP Coordinator and staff will order the appropriate publications and ensure that an adequate supply of printed materials is available at the AAA.
- Relevant publications will be made available at SHIP outreach events.
- An adequate supply of printed materials will be made available at all senior centers.
- Printed materials will be made available to SHIP volunteers for reference and for dissemination to the public.

Policy Changes

M4A underwent a policy change with regard to SHIP when it was decided that M4A would provide in-house SHIP counseling and outreach. In addition, two recent programs have and will create policy changes for the SHIP program: first, the SenioRx program and second, the SMPP grant.

With regard to SenioRx, the scope of a SHIP counselor's responsibility has been limited to assisting the client with the application form and this responsibility does not extend to assisting the client in accessing medication or medication assistance. However, unlike the application form for QMB/SLMB, the application forms for SenioRx are lengthy, requiring detailed disclosure of financial and medical information. Although SHIP policy does state that there will be a system of referral to drug assistance programs and SHIP counselors have provided drug assistance counseling in the past, it is uncertain what impact (if any) the nascent relationship between the SenioRx and SHIP programs will *de facto* have on the SHIP program. At some point in the future, therefore, it may be necessary to -examine the impact of medication assistance on SHIP counseling and draft a formal policy clearly defining the role of SHIP counselors with regard to SenioRx.

With the SMPP grant, additional funding will be available for SHIP. Additional funding will necessitate additional training, a broadening of the scope of services currently provided by SHIP, a separate reporting system and separate accounting procedures. It is hoped that the SMPP grant will enable M4A to hire a full-time SHIP Coordinator; in other words, M4A will hire a Coordinator whose sole responsibility will be to provide SHIP counseling, outreach, and to develop a viable SHIP volunteer program.

Desired Changes in Service Levels

Currently, M4A has 2 staff members who provide SHIP counseling and outreach within the PSA. One staff member is part-time and works a day a week in the SenioRx program. The other staff member, the designated SHIP Coordinator, is also the Information and Referral Coordinator.

When M4A brought the SHIP program in-house in March of 2002, there were 4 designated active SHIP volunteers. Three of these volunteers were in Blount County and 1 volunteer was in Chilton County. There were no active volunteers in St. Clair and Walker Counties and no SHIP volunteers in Shelby County. Upon contacting both active and inactive SHIP volunteers, it was learned that, although trained, none of these volunteers had been utilized for outreach in the recent past.

Since March 2002, M4A has provided training to current SHIP volunteers and there are currently 4 active SHIP counselors, 1 in Chilton County, 1 in Walker County and 2 in Blount County. Further training is needed for new SHIP counselors; in addition, M4A plans to recruit at least 1 active counselor in St. Clair County and Shelby County. Future Plans include the establishment of a program component to utilize current active SHIP counselors for outreach at libraries, churches, senior centers, and other focal points.

By recruiting, training, and utilizing SHIP volunteers, M4A fulfills the terms and conditions of the SHIP grant. In addition, with a viable volunteer program, M4A increases the number of eligible individuals it reaches, counsels, and serves. However, in order to increase and enhance M4A's level of SHIP services, adequate funding for a full-time SHIP Coordinator is imperative. The SMPP grant will provide additional funding but it is uncertain whether the additional funding will be adequate for a full-time Coordinator. Therefore, in the near future and in order to fulfill the terms and conditions of the SHIP grant, it may be necessary for M4A to temporarily focus on volunteer recruitment and development and forgo SHIP counseling. However, because of the volume of telephone calls M4A receives requesting SHIP counseling, it is probable that a second volunteer program will need to be developed. This volunteer program will be an in-house program wherein SHIP counselors will be used to answer SHIP telephone calls, providing Medicare and other insurance counseling, assistance with QMB/SLMB, Medicaid, and long-term care insurance. M4A will also work to have all staff cross trained as SHIP counselors so they can better serve their clients.

Projections for population growth in the M4A service area are currently unavailable.

According to the 2000 Census, there were approximately 51,954 people in M4A's service area who were 60 years of age or older. Averages of 87.1% of these people were White, 10.9% were Black and 1.6% were Latino.

From March 2002 to June 2002, M4A's SHIP program provided service (direct counseling and outreach) to 454 clients or approximately 1% of the service population in M4A's service area.

Of the 158 SHIP clients who received direct counseling and for whom there is demographic data, 81% were White, 4.4% were Black and 1.3% were Latino.

***Total Number of People >=60 years of age in M4A's Service Area**

3,321	Bibb
6,926	Chilton
10,474	St. Clair
17,162	Shelby
14,071	Walker
51,954	Total

***Ethnicity of People in M4A's Service Area**

	White	Black	Latino
Bibb	76.7	22.2	1.0
Chilton	86.7	10.6	2.9
St. Clair	90.0	8.1	1.1

Walker	92.2	6.2	0.9
Average Percentage	87.1%	10.9%	1.6%

Ethnicity of Clients Reached Through Direct Counseling

	White	Black	Latino	Not Collected
March 2002	28	1	0	11
April 2002	21	0	0	8
May 2002	40	2	0	2
June 2002	39	4	0	0
Total	128	7	2	21
Percentage	81%	4.4%	1.3%	21%

***Based on 2000 US Census Figures**

According to general projections made by the US Census Bureau indicating that the baby boomer population growth will occur primarily in the West and in the South, it assumed that a 5% growth rate is reasonable to assume for M4A's service area. Therefore, if the population in M4A's service area increases an average of 5% each year beginning in the year 2000, there will be approximately 134,550 potential clients in M4A's service area by the year 2006.

By increasing the numbers of volunteers in each county, developing an in-house volunteer program, and by utilizing the media in each county, it is reasonable to project that by 2006, M4A's SHIP program will reach approximately 16% of the projected year 2006 service population or approximately 21,520 clients per year. However, these

projections should be re-evaluated when accurate growth projections are available. In addition, the ability of M4A to increase the percentage of clients it serves through SHIP depends on adequate funding and funding that is commensurate with growth projections.

Finally, as part of its Area Plan, M4A will increase efforts to reach a greater percentage of those people in its service area who are of Black, Latino, and Native American ancestry. Growth is expected particularly amongst those who are of Latin American origin, although it is still uncertain as to this population's short-term eligibility for Medicare or Social Security Disability. Nonetheless, it is important at this stage to cultivate relationships with organizations, such as churches, other non-profit entities, state and federal departments and agencies, which serve minority populations.

***Estimated Population Growth/Number of Clients Served by M4A SHIP Program**

Year	Population	Estimated Growth	% Growth	Estimated % Reached	Estimated Clients Served
2000	51,954	2,600	5%	-	-
2001	54,554	5,455	10%	-	-
2002	60,009	9,000	15%	1%	600
2003	69,000	13,800	20%	2%	1,380
2004	82,800	20,700	25%	4%	3,312
2005	103,500	31,000	30%	8%	8,280
2006	134,550			16%	21,528

**Based on 2000 US Census Figures*

296 Clients served as part of outreach and education (March 2002-June 2002)

No SHIP services are currently contracted out.

Information and Assistance (I&A)

Information and Assistance is a new program at M4A that was launched in January 2002. Persons eligible for I&R services include those who are 60 years of age or older or their caregivers. I&R is funded through Title III of the Older Americans Act (OAA) and other state funding received from the Senior Trust Fund.

The primary purpose of the I&A system and its component state and local services is to support all older persons and their caregivers in assessing their needs, identifying the most appropriate services to meet these needs and linking them to the most appropriate service providers. To ensure that the older person and/or his caregiver are linked to

needed services, the I&A Coordinator provides follow-up and advocacy whenever necessary. In addition, the OAA information and assistance system is committed to collecting and disseminating data to support community needs assessment and community planning activities. The main purposes of I&A is to:

- Develop and maintain a comprehensive resource database of information about organizations that provide human services for the community;
- Ensure that older consumers and their caregivers have easy access to information and referral services;
- Provide information about or referral to human services for people who need them, ensuring that selected resources are affordable, accessible, geographically convenient and meet the individual's assessed need;
- Provide problem-solving assistance and advocacy as needed;
- Follow-up with inquirers and/or service providers to determine whether the needed service was obtained and whether it adequately met the need;
- Provide information to community planners and funding organizations regarding requests for human services and gaps in service;
- Develop cooperate relationships to build a coordinated information and referral system which maximizes the utilization of existing comprehensive and specialized I&R providers;
- Develop collaborative working relationships with local service providers to build an integrated service delivery system which ensures broad access to community services; and
- Participate in community education activities regarding available services, providers and the service delivery system.

Information and Referral Client Data January 2002-June 2002

	Unduplicated Clients	Total Clients Served	Units of Service
January 2002	5	5	7
February 2002	16	16	35
March 2002	53	53	117
April 2002	209	209	255
May 2002	64	72	97
June 2002	45	59	81
Total	392	414	592

***Information and Referral Objectives
FY 2003-2006***

GOAL

To obtain *Certified Information and Referral Specialist (CIRS)* status (or comparable certification/specialization) through the Alliance of Information and Referral Systems (AIRS)

p13a

OBJECTIVES

- The Information and Referral Coordinator will participate in at least one state/provincial or regional I&R associational event a year.
- The Information and Referral Coordinator will become familiar with the *Performance Based Competencies for Aging Specialty Certification*.

GOAL

To develop a system of follow-up that will assess the effectiveness of the I&R program

OBJECTIVES

- The Information and Referral Coordinator will designate 10 clients a month for follow-up. This number will increase as the I&R Coordinator receives additional staff.
- The Information and Referral Coordinator will develop a follow-up survey based on the April 4, 2002 Version (or latest version) of the *Information and Assistance Satisfaction Survey*.
- The Information and Referral Coordinator will follow-up on all clients who the Information and Referral Coordinator determines has an unmet need (due to a service gap) or who the Information and Referral Coordinator determines cannot follow-thru or advocate for them self.
- Assessment of the I&R program will include questions designed to determine:
 1. whether the referral was effective;
 2. whether the information provided was accurate;
 3. whether the client's need was met; and
 4. If the client's need was not met, then why the client's needs was not met.

GOAL

To develop a current database of relevant resources in the PSA

OBJECTIVES

- The Information and Referral Coordinator and other relevant staff will participate in Elder Connect trainings.
- The Information and Referral Coordinator will work with the State Coordinator and other relevant ADSS staff to ensure that the I&R Program is in compliance with State expectations and/or standards.
- The Information and Referral Coordinator and other staff members will update the current resource directories.
- The Information and Referral Coordinator and other staff members will distribute the updated resource directories to other agencies, organizations, staff, volunteers, and the public.

GOAL

To identify service gaps

OBJECTIVES

- The Information and Referral Coordinator will use the results from the follow-up surveys and the information gained through client assessments to identify service gaps.
- The Information and Referral Coordinator will collaborate with existing agencies and organizations to meet client needs when there is a service gap.
- When there is a service gap and with express client approval, the Information and Referral Coordinator will actively participate in a collaborative or team-approach case management to meet the needs of clients.
- When there is a service gap and when practicable (i.e., no existing organization or agency effectively addressing the service gap), the Information and Referral Coordinator will develop programs or seek to provide direct services to address the service gap (i.e., work with churches and other community and faith-based organizations; seek sources of additional funding; and enter into partnerships with non-profit organizations and other organizations equipped to provide direct service to clients). In any plan to provide direct services by the AAA, the Information and Referral Coordinator will work with the Executive Director to determine that:
 1. direct provision of the service is necessary to ensure an adequate supply of such service;
 2. the service is directly related to the AAA's administrative functions; or
 3. the service can be provided more economically, and with comparable quality by the AAA.

In providing direct services, the Information and Referral Coordinator will work with the Executive Director and ADSS to obtain the appropriate waiver.

GOAL

To identify and develop positive relationships with organizations which provide/may be willing to provide services to the elderly

OBJECTIVES

- The Information and Referral Coordinator will be actively involved in community events and civic organizations to enhance the visibility and credibility of the I&R Program.
- The Information and Referral Coordinator will serve on task forces, advisory councils and other committees which seek to meet, enhance or address the short-term and long-term needs of the elderly in the state, region and/or PSA.
- The Information and Referral Coordinator will identify and develop a positive working relationship with key service organizations in the PSA and will introduce them and educate them about the importance of single point of entry for senior services. These organizations will at least include: the Department of Human

Resources, the Health Department, Positive Maturity (United Way), and Community Action.

GOAL

To develop a mission statement

OBJECTIVES

- The Information and Referral Coordinator will work with the AAA Executive Director to develop an I&R mission statement which will coincide with the AAA mission statement.
- The Information and Referral Coordinator will seek the advice of other I&R Coordinators, the State Coordinator, and other relevant resources and personnel in developing a mission statement.
- The I&R mission statement will take into consideration not only the current *ADSS State Plan* but also the *National Standards for Older Americans Act*.

GOAL

To develop an effective I&R volunteer program

OBJECTIVES

- Through various outreach programs and staff referrals, the Information and Referral Coordinator will actively recruit qualified I&R volunteers.
- The Information and Referral Coordinator will recruit I&R volunteers who exhibit professionalism, good communication skills (including good listening skills), patience, and a genuine concern for the elderly.
- The Information and Referral Coordinator will develop a manual for I&R volunteers. This manual will include:
 1. the I&R mission statement;
 2. clear expectations and duties of an I&R volunteer, including a policy and process for dismissing an I&R volunteer;
 3. professional standards, including etiquette, client confidentiality, and the proper scope of I&R services;
 4. training on client assessment; and
 5. Community resources.
- The Information and Referral Coordinator will work with the Executive Director to ensure that there is adequate office space and telephone lines for the I&R volunteers.
- The Information and Referral Coordinator will ensure that all I&R volunteers are trained to use the relevant I&R database(s).
- The Information and Referral Coordinator will develop a plan to ensure that I&R volunteers are knowledgeable of the most recent I&R information.
- The Information and Referral Coordinator will develop a plan to ensure that all I&R volunteers are respected and appreciated.

Purpose: To create a consumer centered single point of entry into the continuum of care system that will screen, assess, educate, assist and refer people about the range of options for services.

Main Function of I & A System

- ✓ AAA will develop and maintain a comprehensive resource database of information about organizations that provide human services to the community
- ✓ Provide information about or referral to the human services for people who need them, ensuring that selected resources are affordable, accessible, geographically convenient and meet the individuals assessed needs
- ✓ Provide problem solving assistance and advocacy as needed
- ✓ Develop team approach to finding services for people who fall in the gaps or have no other source of support or assistance
- ✓ Follow up with inquirers and/or service providers to determine whether the needed service was obtained and whether it adequately met the need
- ✓ Document assistance and needs for future planning
- ✓ Develop inter- agency agreements and uniform assessment tools

Benefit to community:

- ✓ AAA will provide information to community planners and funding organizations regarding requests for services and gaps in services
- ✓ Develop cooperative relationships and partnerships
- ✓ Ensures broad access to community services
- ✓ AAA will provide community education activities regarding available services, providers and the service delivery system
- ✓ Eliminate duplication of services and assessments
- ✓ Better quality of service to community due to collaboration
- ✓ More referrals to programs that are within the agencies mission and scope of services

Policy Changes, Desired Changes in Service Levels, Future Growth and Unmet Needs within the PSA

Since Information and Referral is a new program there may be many policy changes and modifications in the coming years. These changes will take place with the advice and planning of a Single Point of Entry Task Force to be developed in October 2003. It is hoped that M4A's Information and Referral program will function as a single-point of entry for client assessment. The purpose of the single-point of entry is to reduce duplication of effort, duplication of client assessment, and to reduce the amount of time clients spend trying to negotiate the services available to them. Since the single-point of entry concept depends on the cooperation of other agencies and departments, it is uncertain as to how this component of the Information and Referral Program will evolve. Within our own network of staff and contracted programs we hope to have a uniform assessment and data collection tool and to approach the individual client as a whole person with the goal to meet all of their emotional, physical, spiritual and social needs through the team approach to providing services and sharing ideas and information.

The current goals and objectives of M4A's Information and Referral Program contemplate 3 areas of development over the next 3 years: first, that there will be a full-time I&R certified specialist (I&R Coordinator) whose main purpose will be to identify current service gaps and to develop working relationships with existing service providers to fill these service gaps; second, that there will be a social worker (or I&R Assistant) who will provide assessments and assist clients who require case management. This social worker will collect data on the client through a uniform assessment tool that will work for all programs and will make referrals to such programs. The I & R Social worker will also re-assess home bound clients at least yearly to determine that they are still eligible for home bound services. The I&R Coordinator and Case Manager (or I&R Assistant) will work together on issues requiring advocacy. Third, that there will be in-house I&R volunteers whose main purpose will be to answer telephone inquiries by providing clients with current, direct, and accurate information on available services; and I&R volunteers will provide administrative support.

As of January 2002, M4A has reached 392 unduplicated clients through its I&R program, or approximately 1% of M4A's service populations. Of these 392 clients, 50% were referred to medication assistance and 29% required SHIP counseling. As both the SenioRx program and SHIP programs develop at M4A, it is anticipated that I&R will do more assessments and referrals to these programs as well as these program staff conducting assessments and making referrals to I&R for more intensive case management.

From January 2002 to June 2002, M4A's I&R program referred 414 clients to 386 services and/or programs. One-hundred ninety-six of these 386 referrals were made to medication assistance, 112 referrals were made to SHIP, and 235 referrals were made to other existing service programs. However, 158 referrals were made to organizations designated as "other." In other words, 158 referrals were made to non-profit organizations such as the United Way, the American Red Cross, the Salvation Army,

Baptist Associations, churches, and homebuilders associations. By and large, clients who were referred to organizations designated as "other" requested the following types of services: direct financial assistance for medication, home repair, and medical equipment (including hearing aids, eyeglasses, wheelchairs, motorized wheelchairs, and lift chairs); assistance with home modifications precipitated by a fall or by a permanent illness; homemaker services (including sitters); and transportation services. Currently, there are service providers (although limited) for transportation, eyeglasses, and durable medical equipment. There are currently inadequate resources to fill the needs of homemaker services, direct financial assistance, home modifications, and hearing aids. Therefore, in the future M4A should contemplate establishing a non-profit entity to apply for certain grants and to accept financial contributions to provide direct services to the at risk and targeted populations. When necessary, M4A will also need to obtain the appropriate waivers to provide such direct services. Providing direct services as part of its Information and Referral Program will require policy changes, especially if M4A should decide to establish a 501.C.3.

Information and Assistance Services are currently funded through a variety of funding sources and is a top priority of the agency. Future funding sources will be identified to full fill the anticipated need for a social worker assigned to each county for initial service assessments, case management and follow-up.

Legal Services

Legal services are funded through Title III of the Older Americans Act (OAA) and are limited to legal assistance which is non-fee-generating. Persons eligible for legal services include those who are 60 years of age or older and who reside in M4A's service area. The scope of legal services includes the following:

- Legal assistance related to income;
- Legal assistance related to access to health care;
- Legal assistance related to long-term care;
- Legal assistance related to nutrition;
- Legal assistance related to housing;
- Legal assistance related to utilities;
- Legal assistance related to protective services (abuse and neglect);
- Defense of guardianship;
- Age discrimination; and
- Wills and general legal advice.

Legal Services Goals & Objectives
FY 2003-2006

GOAL

To develop an effective and comprehensive legal services program at the AAA that meets both the requirements of the OAA and State Plan

OBJECTIVES

- The Legal Services Coordinator will seek relevant advice from the Executive Director, State Coordinator, and other in-house attorneys in providing legal assistance related to income; healthcare; long-term care; nutrition; housing; utilities; protective services; defense of guardianship; abuse; neglect; and age discrimination.
- The Legal Services Coordinator or legal assistant under the supervision of an attorney will provide assistance to those individuals 60 years of age or older in the PSA who are being financially exploited or who need assistance with public benefits, wills, powers of attorney, or deeds.

GOAL

To provide legal services to individuals with greater economic or social needs or residing in rural areas

OBJECTIVES

- The Legal Services Coordinator will work with the Executive Director and other relevant personnel to develop outreach programs in rural areas in the PSA.
- The Legal Services Coordinator, legal assistant, or staff will schedule outreach events at senior centers and other focal points, particularly those centers and focal points in rural areas.

GOAL

To provide timely and professional legal assistance to all eligible clients

OBJECTIVES

- When practical, the Legal Services Coordinator, legal assistant, or staff will return calls within 3 working days.
- The Legal Services Coordinator, legal assistant, or staff will keep clients informed of the progress of their legal matter.

- Under the scope of legal services, the Legal Services Coordinator, legal assistant, and all legal staff will be bound by confidentiality.

GOAL

To provide oversight to the Ombudsman and State Health Insurance Assistance Program (SHIP)

OBJECTIVES

- The Legal Services Coordinator will become familiar with nursing home regulations.
- The Legal Services Coordinator will work with the Ombudsman and the SHIP Coordinator to fulfill the standards of the State Plan.
- In providing oversight or advice to these or other programs, the Legal Services Coordinator will observe the attorney-client privilege and avoid conflicts of interest.

Policy Changes, Desired Changes in Service Levels, Future Growth and Unmet Needs within the PSA

The Alabama Department of Senior Services has granted a waiver for M4A to provide direct legal services. This waiver contemplates no policy changes at M4A; rather, the intent and scope of the Older Americans Act in providing legal services to the elderly will be fulfilled. By bringing legal services in-house, M4A intends to strengthen the relationship between its existing in-house programs which will in turn provide more comprehensive and timely services to its client population.

In its goals and objectives, M4A intends to bring the Ombudsman program and the SHIP program under the supervision of Legal Services. These programs are intended to work in collaboration with each other, when appropriate, so as to better serve the needs of the client.

Confidentiality and proximity of the attorney make it difficult to provide overlapping services with clients when buying services from a private law firm as M4A has done in the past. By granting M4A the permission to provide direct legal services our agency is moving towards providing a Holistic approach to addressing the individual needs of clients with team intervention as necessary. We believe the individual client and the agency will benefit from having a staff attorney working directly for M4A.

229 Clients served as part of education and outreach (April 2002 to June 2002). M4A intends to work with ADSS and providers to increase visibility and outreach for the Legal Services Program and to determine creative ways to reach the underserved.

As of October 1, 2002, no legal services will be contracted out.

Community Long-term Care Ombudsman Program

The Board of Directors has approved a new organizational structure for M4A to facilitate more of a team approach to community service. The Ombudsman Program will be supervised by the Attorney who will be directing the Elder Rights Department for M4A. The ombudsman program will also work very closely with the Community Services Department of M4A.

M4A has hired a new ombudsman who will begin employment on July 1, 2002. She brings with her nine years experience as an ombudsman certified in Alabama and California. M4A plans on having 3 other staff members certified as back up ombudsman. These will include the Executive Director, Elder Rights Attorney and Information and Assistance Coordinator. Future plans also include training and certification of Volunteer Ombudsman.

Facilities:

There are 15 Licensed Nursing Homes in Chilton, Blount, St. Clair, Shelby and Walker Counties with 1,608 beds. There are 30 Licensed Assisted Living Facilities with a total of 698 beds. Several facilities have applied to the State Health Department to be licensed as Specialty Care Assisted Living Facilities. One facility in Blount County and one facility in Walker County have been licensed.

Volunteers:

At the present time there are no certified volunteer ombudsmen in our service area. Advisory Council Members do have a presence in our Long Term Care Facilities and report needs and concerns to M4A staff. M4A will emphasize building a volunteer network of ombudsman beginning in 2003.

Program Component: I. Complaint Processing

M4A will develop a marketing plan before January 2003 to increase awareness of the Ombudsman Program and Long Term Care Issues. By increasing awareness of the program it is anticipated that the number of referrals for complaint resolution will increase. This plan will include goals and objectives for volunteer recruitment.

The Ombudsman will receive, investigate and attempt to resolve complaints according to procedures outlined by the AL Policies and Procedures for the Ombudsman Program. The ombudsman program received 60 complaints during program year 2001. 42 complaints were validated and 56 complaints were resolved. This resulted in a 93% resolution rate. The ombudsman program will increase complaint investigations by 25% or 15 cases in program year 2003. Increased complaints will result from more visibility and awareness of the program. Complaint processing and investigation will be the top priority of the Lead Ombudsman. Any complaint that can not be resolved in a reasonable

period of time will be referred to the State Ombudsman. All complaint resolution will involve response times as established by the Policies and Procedures of the Ombudsman Program.

Program Component: II. Information and Assistance

The Ombudsman Program will receive complaints through the M4A Eldercare Hotline for Information and Assistance. Phone calls are received by the I & A coordinator during normal business hours. The I & A Coordinator will be the first point of contact for the ombudsman program. The I & A Coordinator will also be a certified ombudsman and be trained to answer many long term care questions. Referrals made directly to the ombudsman program will be processed following all policies and procedures for M4A, ADSS and the Older Americans Act as amended. The Ombudsman will receive, investigate and attempt to resolve complaints according to procedures outlined by the AL Policies and Procedures for the Ombudsman Program.

Program Component: III. Community Education

Outreach and dissemination of information regarding long term care information and ombudsman services available are regularly included in programs provided by all M4A staff. This combined with frequent visits and contacts with the facilities in the planning and service area assist in making this service visible. Community Education programs and public information to increase awareness of all M4A services and advocacy issues have been lacking in our service area as indicated by surveys and opinions of the M4A advisory council; therefore, community education will be a focus of the Agency in year 2003.

The ombudsman will also work with the media, hospitals and other community agencies by providing printed and audio visual information for public dissemination.

Program Component: IV. In-service Education to Facilities

The community ombudsman will visit all facilities in the M4A Region before January 2003 to establish contact and to develop a working relationship with the nursing home facility administrator and social worker. At this visit the ombudsman will schedule a staff in-service and resident/family council in-service to be placed on the facility calendar before January 2004. The ombudsman will work with the facilities to complete these in-services sooner than January 2004 if at all possible.

The ombudsman will plan a workshop for Assisted Living Facilities. The Ombudsman will utilize her advisory council to plan and coordinate this workshop.

In-service education will include such topics as Resident Rights, Elder Abuse, fall prevention and Working with Dementia. The ombudsman will also work with other inter-agency programs such as Alabama Cares and Legal Services to provide community and facility in-service education.

Program Component: V. Routine Visits

The ombudsman will establish a schedule to provide routine visits to all facilities. This will also be a function for the volunteer ombudsman. All facilities in the area will be visited at least quarterly. Any facilities in danger of losing their license status will be visited monthly.

Program Component: VI. Issues Advocacy

The Advisory Board along with the Ombudsman will identify issues impacting residents, caregivers and future residents of Long Term Care Facilities and will participate as an external advocate to promote the interest of the residents. The ombudsman will be the watch dog for National, State and Local legislation that may impact this population.

Members of the Advisory Board, M4A Staff and the ombudsman will participate in task force, planning committees and advisory councils impacting public policy on long term care issues. Efforts will be made to keep other staff, agencies, board members and the community at large informed on advocacy issues and public policy. The Director of M4A is Chairperson of the Olmstead Financial Committee, Serves on the SCALF Waiver Committee and has been appointed to serve three years on the Medicaid Long Term Care Advisory Council.

Program Component: VII. Inter-Agency Coordination

The long term care ombudsman will develop relationships and offer staff in-service education to other public and non-profit agencies serving the elderly and disabled. The Ombudsman will provide resource information and encourage appropriate referrals from other community organizations including faith based institutions.

Program Component: VIII. Resident and Family Councils

The Ombudsman will provide information, educational materials and guidance to Resident and Family Councils. The ombudsman will work closely with facility social workers to ensure involvement.

Program Component: IX. Advisory Council Development

The Long Term Care Ombudsman Advisory Council will be revised by January 2004 to include equal and cross representation from all five counties in the M4A service area. These advisory councils will be nominated by the Ombudsman, M4A Staff, M4A Board of Directors and contract providers. The M4A Board of Directors will pick and approve

new members by November 2003 and notify new members by December 2003. Training for the new advisory board will be conducted in January 2004. All policies and procedures for the Ombudsman Program will be followed.

Program Component: X. Volunteer Development

The ombudsman will research other volunteer ombudsman programs and make recommendations to the advisory council to develop a volunteer ombudsman program in 2004. Volunteers can be a real asset to help the ombudsman to maximize resources and provide more in-depth services to improve the quality of life for long term care residents.

Program Component: XI. Disasters and Long Term Care Facility Closures

The Ombudsman will develop a local area disaster plan. This plan will include and emergency plan for long term care facilities closing in the M4A area. Plans include a meeting scheduled October 2002 for all long term care facilities in M4A area in collaboration with M4A staff, DHR, Emergency Management, the Health Department and a representative from the county government to discuss disaster policies and procedures. The outcome results should determine how we will work together in the event of an emergency to ensure the safety and well being of the residents and staff of the facility.

Other agencies and service providers to be included in this planning process are:

- County transportation department
- Local Hospitals
- Transportation companies – ambulance and tour bus companies
- Law enforcement agencies
- State/Local ombudsmen
- Volunteer organizations and local advocacy groups
- Red Cross/Salvation Army/other relief organizations
- National Guard
- Mental Health organizations

There will be a Nursing Home Emergency “Kit” developed for this local area. Each staff person certified as Ombudsman will have a “kit” in their home and one in the office. This kit will be updated regularly.

“Kit” will include the following:

- Informational Pamphlet people to contact
- Abbreviations/Terminology Sheet
- Residents Rights Pamphlets

Placement options (Provide residents, family members and/or guardians with information about facilities and who to contact regarding other nursing homes in the area, recent survey information, etc.)
Placement alternatives to nursing home (Provide residents and family members with information and whom to contact regarding other types of placement such as board and care, personal care facilities, home health, etc)
Sample letter stating emergency
Tip sheets for holding meetings with media, families, etc
Tip sheets for explaining relocation, etc to residents
List of important duties to be performed
Sample form to be used as Roster of residents and where they are being transported to
List of who will handle phone calls, disseminate information on location of residents
Role of volunteers, i.e. run errands, copying, visibility afterwards, answering phones

The ombudsman will be available to meet with families and residents. The Ombudsmen make contact personally or through volunteer ombudsman with residents in temporary facilities and upon return to home facility.

Elderly and Disabled Medicaid Waiver Program

The Elderly and Disabled Medicaid Waiver (E&D Waiver) Program is funded under Title XIX and the state oversight agency is the Alabama Medicaid Agency. The Medicaid Waiver Program assists eligible older persons to live independently for longer periods of time by providing basic in-home services. Services available through the Medicaid Waiver Program include case management, homemaker, personal care, skilled and unskilled respite, Adult Day Care and homebound meals. Older persons who receive Medicaid through such programs as State Supplementation and Supplemental Security Income and who otherwise meet nursing home eligibility may choose to remain in their homes, living independently, with the help of these services. The E& D Waiver provides community based services to elderly and disabled individuals, who would like the choice to remain in the community instead of being institutionalized.

In order to qualify for the E&D Waiver, a client must meet both financial and medical criteria. In order to meet the financial requirement, clients must be on full Medicaid [those persons receiving Supplemental Security Income (SSI) or State Supplementation]. To meet the medical component, the clients must be medically eligible for nursing home care through the Alabama Medicaid Program. The medical qualification must be established through the client's physician filling out and signing an evaluation data form. The form must be signed by the doctor certifying the client is nursing home eligible and the client must meet at least two admission requirements. There is no age requirement for this program. M4A has recently been allotted 184 slots for E& D Waiver clients. This amounts to approximately 37 Clients per county. As these slots are filled there will be a waiting list with new clients being admitted as current recipients are discharged.

M4A currently has 139 active clients and has served 165 different clients throughout this physical year. The increase in slots resulted in two new case managers being hired in FY

2002 and another to be hired before October 2002. When the hiring is complete there will be one supervisor with 5 case managers each assigned to a specific county.

The population estimates documented in the Area Plan from the US 2000 Census show a dramatic growth rate for our area. As the number of people increase, so will the need for home and community based services. M4A anticipates and increase in E&D waiver slots over the next few years. Plans are being made to improve our service delivery system to allow for current and future growth of the program.

The community based services offered through the Medicaid Waiver program at this time are:

- Case Management- Case management is an important component of the access system. It is the glue that holds the program together. The case manager coordinates services for the individual with emphasis on their personal choices and circumstances. The case manager provides assistance either in the form of consultation, access to services and care coordination. The case manager is responsible for developing the plan of care for the individual.
- Homemaker- Help with household chores such as cleaning, cooking and shopping.
- Personal care- Help with personal hygiene issues such as bathing, dressing, and dental/skin care.
- Respite- A replacement caregiver so that the person who usually cares for the client can have a break from care giving responsibilities. This services can be unskilled or skilled (nurse) depending on the level of care requested by the doctor.
- Companion- Someone who can visit with the client and act as a companion on outings outside the home. The Companion can not transport the client, but can assist with transportation.
- Frozen Meals- Up to two meals per day can be delivered to the client's home 1 time per week. These meals are easy to heat and follow nutritional guidelines as outlined by the RDA and Older Americans Act.
- Adult Day Health- Client is transported to and from an ADH setting where they receive socialization and therapeutic activities. (At this time M4A does not have any ADH providers contracted to provide these services).

In the past it was the responsibility of the Lead Case Manger to do annual evaluations of all contractors. The Alabama State Medicaid Agency and ADSS have teamed up to take over that responsibility. Beginning October 2002, Medicaid and ADSS will begin the annual evaluation of Medicaid Waiver contract providers. The case managers will be responsible for day to day monitoring of individual client services and must monitor billing requests for accuracy.

GOAL

To provide older persons on Medicaid an option to institutional care by offering in-home services through the Medicaid Waiver Program and to allow for maximum independence and dignity in the home environment.

OBJECTIVES

- The M4A will provide case management for the Medicaid Waiver Program by employing five case managers and one supervisory case manager to serve the five county areas.
- Case managers will be provided with ongoing training covering case management skills, resources, geriatric care, etc.
- M4A will provide adequate community education and outreach to make sure community is aware of Medicaid Waiver Services.
- M4A case managers will target clients in under served areas of the county.

GOAL

To have an adequate number of service providers to cover the needs of existing and new clients.

OBJECTIVES

- Identify and establish relationships with all service providers in community.
- Promote AAA to attract new providers
- Ensure that providers receive good communication, support and recognition from contracting agency.
- Enforce deadlines so providers are paid in a timely manner.
- Develop competitive payment rates for services.

GOAL

To receive more referrals from medical community.

OBJECTIVES

- Establish relationships with doctors and hospitals serving Medicaid patients.
- Develop public relations information campaign for Medical Community.
- Make frequent contacts with doctors who are resistant to work with program. Provide them with educational materials and develop working relationship.

GOAL

To meet all needs of clients, not just covered services.

OBJECTIVES

- Case managers will learn more about existing community resources and work clients through the system.
- Case managers will do futures planning with clients and caregivers.
- Case managers will review client's medications and talk to them about safe medication management. Case managers will assist client's caregivers with SenioRx if they are not Medicaid recipients and meet the guidelines.

- Case manager will listen to client and provide emotional support.
- Case manager will work with volunteers and service organizations to do friendly visits, telephone reassurance, health screenings, etc.
- Case manager will find resources in the community to make sure client is recognized on special holidays. Case manager will send client a card on their birthday.
- Case manager will work with client's family or caregiver to develop a circle of friends who may provide companionship and assistance for client.

Caregiver Program

ALABAMA CARES is a program designed to support family caregivers by providing information, assistance, counseling, respite and supplemental services in the home and community. This program is intended to assist caregivers so they may take care of their aging loved ones and themselves. As written by law, caregivers of older adults (60+) and senior caregivers (60+) of children ages 18 and younger are eligible for this program. Priority is given to persons in greatest social and economic needs and older individuals providing care and support to children with mental retardation and related developmental disabilities.

A sliding fee scale, as determined by the Alabama Department of Senior Services, is used to determine the client's shared cost for certain services. Cost sharing judgments are determined based upon the care recipient's income. If the care recipient's income falls below the national poverty level, the client is not expected to pay anything for the services.

Alabama Cares is funded in part by the Alabama Department of Senior Services and Title III of the Older Americans Act. Private and corporate donations also support some aspects of the program. Currently, each caregiver/client may receive up to \$500.00 per program year to supplement the care of their loved one. The client may choose from a list of services through contracted service providers. The client "pays" for the services with M4A issued vouchers. The Alabama Cares Coordinator (ACC) has contracted with ten (10) service providers to offer in-home respite, adult day care, emergency response systems, transportation, medical equipment and supplies. The ACC has found that there is a lack of service providers for clients in Walker, Blount and St. Clair counties. This lack of service providers is resulting in a re-evaluation of how to provide services that best assist the caregiver and give the caregiver some personal choices.

ACC is starting support groups in all five counties. Walker and Shelby county support groups are established and flourishing. ACC has received technical and educational support from Miller Piggott, Director of the Alzheimer's Association of Alabama to assist with planning and development of support groups. Miller Piggott has had over 15 years of experience working with family caregivers.

In the FY 2003, the ACC would like to increase the per client cap from \$500.00 to \$800.00. This will enable the client to receive more services throughout the entire year and will provide more substantial assistance in emergency situations.

One obstacle to providing the most person centered services to the caregiver is the percent cap on how service money can be spent. The program is designed to be flexible; yet the funding is inflexible. The majority of the budget is allocated for respite services and only 20% to be used for supplemental services. Although respite is the most vocal need often expressed by caregivers and perceived by policy makers as the greatest need; it is not a practical service utilized by caregivers. Caregivers want stress relief from their situation and often the services of choice are financial assistance through supplemental services, assistance with household chores, emotional support and education. In the rural areas respite is difficult to provide due to a lack of service providers. The majority of current clients are very apprehensive about using respite provided by an unknown surrogate caregiver and would rather receive assistance with incontinent supplies, etc. which would free up their personal funds to pay someone they know and trust to assist with respite. The clients do not understand why they can not get assistance to "pay" a neighbor or friend for providing services. The caregivers would be better served if the AAA were allowed some creativity and flexibility with funding for services.

Grandparents are increasing assuming a new role of caregiver. The 2000 Census shows that 55% of grandparents in Alabama are responsible for one or more grandchildren under the age of 18. The following demographics apply to the M4A service area:

- Shelby County 48%
- St. Clair County 53%
- Chilton County 58%
- Blount County 53%
- Walker County 62%

These census figures were just released and are much higher than anticipated. M4A will develop a task force in our five county area beginning in October 2002 to address a community wide plan to assist these caregivers. Other agencies such as Department of Human Resources, Community Action, Board of Education and United Way will be asked to serve on Task Force along with Grandparents responsible for grandchildren.

GOAL

For caregivers in the M4A service area to have access to community and home based services that provide relief from the day to day stress and responsibility of being a caregiver.

OBJECTIVES

- ACC will determine with advice from caregivers the community based needs of caregivers in the five county regions
- ACC will determine local resources and assist with development of resources for caregivers
- ACC will work collaboratively with other agencies and service providers to provide education on care giving and to increase services and potential resources.
- ACC will provide case management, information and referral, individual counseling and caregiver training.

- ACC will establish and maintain caregiver support groups in all five counties by October 2004.
- ACC will be cross trained in other areas such as insurance counseling, medication assistance and other program eligibility for direct assistance to clients.
- The Caregiver Coordinator will act as the case manager for clients receiving direct services and will provide or coordinate direct services as is deemed appropriate through an assessment based on the client needs, stress indicators, personal choices and the services available. Service provision, unmet needs and caregiver assessments will be routinely tracked. Caregivers will be given pre and post quality of life surveys to help determine the effectiveness of the program.
- Caregiver advocacy will be an integral part of the service provision of the program.
- Caregivers will also be extended appropriate case management and support after the death of the person they are caring for.

GOAL

Grandparents caring for grandchildren living in the M4A service area will have the access to emotional support, information and referral and advocacy.

OBJECTIVES

- M4A will develop a task force to study the needs and resources available for grandparents caring for grandchildren.
- The ACC coordinator will work closely with the Staff Attorney on any legal issues faced by caregivers. Staff Attorney will make referrals when appropriate.
- The ACC coordinator will work with other agencies to develop educational and support materials for grandparents.
- A handbook will be developed for grandparents raising grandchildren with disabilities. M4A will collaborate with other agencies to develop this handbook.

Other priority areas:

Outreach: Outreach efforts will be through an area publicity campaign to include: printed material, newspaper, radio and television advertising, on-going contact with support groups, churches, advocacy groups, public safety personnel, contract service providers and any other agencies. Participation in health fairs, senior events, senior center visits/workshops and public education forums will be included in our outreach efforts throughout the year. A caregiver newsletter will be developed and published in November 2002, March 2003, and June 2004. M4A Staff will also provide the media with press releases and articles for publication.

Information and Assistance: the Caregiver Coordinator will provide information and referral to all caregivers requesting information. M4A will contract with Caregiver Media Group to provide caregivers with a subscription to Today's Caregiver. The ACC will mail a caregiver information packet to each new caregiver.

Counseling/Support: All staff handling calls dealing with caregivers will be trained in listening skills and how to give emotional support to those in care giving roles. This

training will also be offered to other service providers. The Caregiver Coordinator will provide some case management with the intention of building support teams around the caregiver using their natural supports as a supplement to "Alabama Cares" services. We will develop one support team per quarter starting in 2004.

Groups/training: the Caregiver Coordinator will provide assistance with the development of support groups. The Caregiver Coordinator will work with existing support groups established in the community. The Caregiver Coordinator will also work with the library system to develop an inter-library loan program with updated material. Caregivers will suggest useful material.

Respite/Supplemental Services: In home, out of home and daycare respite services will be provided where services are available using the sliding scale fee and voucher system developed by ADSS. The Caregiver Coordinator will work with county providers to assess the need for more daycare services and will assist with advocating for such services. The M4A will also contract with the Alzheimer's Association of Central Alabama to provide supplements to scholarships of caregivers in M4A service areas for daycare and incontinence supplies. M4A will develop contacts with other providers to accept vouchers for other services such as nutritional supplements and transportation. Nutrition Counseling will be a supplemental service provided by M4A in the year 2004.

Prescription Drug Program

The Middle Alabama Area Agency on Aging (M4A) has received over 200 telephone calls from senior citizens inquiring about SenioRx. According to the 2000 US Census, the total 60+ population in our 5 county service area is 57,679. Currently, we reach 6.4% of our 60+ population through our 24 nutrition sites. Not all of the seniors served by our nutrition sites will be eligible for SenioRx. Assuming that all the people we reach at senior centers are eligible for medication assistance, our current funding allows us to reach 10% of eligible seniors. Ten percent of our currently clientele is 373. Based upon the 1990 Census, there are 13,165 senior citizens in our PSA who qualify for SenioRx. Our funding would enable us to reach 10% of those senior citizens, or 132. In order to reach an estimate of the number of persons to be served with SenioRx, we used the following formula:

57,679	M4A 60+ population based on 2000 Census
<u>X 0.064</u>	Percentage of population M4A currently services via nutrition sites
3,731	

3,731	
<u>X 0.010</u>	Percentage of population current funding allows us to reach
373	

13,165	Senior citizens in our area who qualify for SenioRx
<u>X 0.010</u>	according to 1990 Census
132	

373	Target population based on 2000 Census
-----	--

+132
505/2

Target population based on 1990 Census

252

Average / Mean

Two-hundred fifty-two people served is a realistic goal, but our intention is to serve 10% more per quarter as the program develops. Additionally, we believe this program will reduce the incidence of emergency room visits as well as hospital and nursing home admissions.

In our planning service area, there are 3 prescription drug assistance programs. These programs are in St. Clair, Walker, and Blount Counties. The program in St. Clair County is administered through the St. Clair County Health Department. The eligibility requirements for this program are as follows:

- the client must be in serious financial need;
- the client must be 50 years old or older;
- the client income must be less than \$800 per month;
- the client cannot have any prescription drug coverage; and
- the client must be a resident of St. Clair County.

The Walker County Senior Citizen Indigent Medication Program (SCIMP) is administered by Positive Maturity and housed with the Retired and Senior Volunteer Program (RSVP) in Walker County. The eligibility requirements for SCIMP are as follows:

- the client must be in serious financial need,
- the client must be 60 years old or older;
- the client must have income less than \$700 per month;
- the client cannot have any prescription drug coverage; and
- the client must be a resident of Walker County.

The Blount County Medication Assistance Program is administered through the Blount County Health Department. The requirements for the program include the following:

- the client must be in serious financial need;
- the client must be 50 years old or older;
- the client must have income less than \$750 per month;
- the client cannot have any prescription insurance coverage but C+ is acceptable; and
- the client must be a resident of Blount County.

The following chart compares the existing medication assistance programs requirements and contrasts their eligibility requirements with those of the SenioRx program.

	St. Clair Medication Assistance Program	Walker County Senior Indigent Medication Program	Blount County Medication Assistance Program	SenioRx
Age	50 years old or older	60 years old or older	50 years old or older	60 years old or older
Financial Need	Serious financial need	Serious financial need	Serious financial need	
Income	Less than \$800/month	Less than \$700/month	Less than \$750/month	Income for a household with one person \$1,466/month and \$1,874/ month for a household of two
Insurance Coverage	No prescription insurance coverage	No prescription insurance coverage	No prescription insurance coverage (C+ is okay)	Patients may not have any private insurance or Medicaid that covers prescription medications
Residence	Must be a resident of St. Clair County	Must be a resident of Walker County	Must be a resident of Blount County	Must be a legal resident of the county and state in which they apply

Middle Alabama Area Agency on Aging will build a cooperative relationship with the existing medication assistance programs in our area. We will do this primarily through communication and information sharing with the Coordinator. Also, because the requirements of the existing programs differ from SenioRx, M4A will be making referrals to these programs. In addition, we will work with the current medication assistance programs by receiving referrals from them. Their referrals will include clients whose monthly/yearly income exceeds the threshold amount for the existing medication assistance programs. Referrals M4A will make to these programs will include clients who are less than 60 years old and who meet the other eligibility requirements of the existing medication assistance programs. Since, our funding limits the number of seniors we will be able to reach, so the other programs will help us to reach a greater number of senior citizens. We hope to work in collaboration with the other programs to maximize the number of citizens who will receive medication assistance in our 5 county areas. It is reasonable to think that some of the programs may feel threatened by our program; although we feel strongly that their programs address an unmet need. We will build relationships that will be most effective and efficient to serve our senior citizens and maximize community benefits to citizens through referral partnerships. Middle Alabama Area Agency on Aging will utilize our senior centers as the first focal point for operating the SenioRx program. We will train community partners and cross-train staff to do intakes and screen clients for eligibility. Our senior centers will be used

for outreach. We will schedule frequent trips to centers and other designated community sites to reach new clients as well as work on renewals.

The Information and Referral Coordinator will provide oversight and input to the SenioRx Program Coordinator. She will assist in planning and implementation of the program as well as outreach and referral. The Information and Referral Coordinator's job qualifications include: a bachelor's degree or 2 years experience working in a non-profit or social service organization and 2 or more years experience coordinating community or volunteer programs is required for this position.

The SenioRx Program Coordinator's duties include the following:

- Doing intakes and referrals;
- Determining eligibility;
- Coordinating the distribution of SenioRx client forms;
- Establishing an outreach schedule at senior centers;
- Coordinating the training of existing senior center staff and volunteers;
- Partnering with local hospitals for space and staff to process applications on-site;
- Developing a plan to encourage physicians to participate in SenioRx
- Assisting clients who need additional assistance in the application process; and
- Being responsible for reporting and tracking of SenioRx program.

The Coordinator's job qualifications are: a bachelor's degree with major course work in healthcare, social science, or related field and at least 1 year of relevant experience; professional experience in a health care setting; and computer and word processing skills required.

As administrative support, we will also employ a part-time RN, LPN, or Medical Social Worker. The job duties of this position include the following:

- Assisting clients who need additional assistance in the application process;
- Training volunteers and other intake workers;
- Assisting Coordinator with outreach to doctors, hospitals, and other healthcare organizations; and
- Checking drug interactions.

The job qualifications for this position are: the person must have a minimum of 2 years of higher education completed beyond high school or comparable work experience in a health care or social services area. Two years of professional experience in a health care setting may be substituted for education.

For additional administrative support, a part-time clerical assistant will be hired.

The clerical assistant's duties will include the following:

- Outreach at senior centers and other focal points;
- Assisting clients who need additional assistance in the application process;
- Assisting with the coordination of volunteer component of the SenioRx program
- Assisting with SenioRx intake and distribution of client intake forms.

The job qualifications for this position are a high school degree (or GED) or higher with a mastery of computer skills and other clerical skills.

M4A's entire staff will be used for recruiting volunteers through outreach. The SenioRx employees, the Information and Referral Coordinator, and the Executive Director will help the Program Coordinator to follow-up and screen potential SenioRx volunteers. They will also work on a training program that will include relevant training materials, telephone skills, and use of the RxAssist software. SHIP counselors will be used to assist seniors in filling out SenioRx applications and in the screening of clients.

In our first quarter of operation, we hope to obtain 3 fully trained and qualified volunteers to assist with the SenioRx program in-house. Our long-term goal is to have one fully trained and qualified volunteer in each of our 24 senior centers.

The volunteers' duties will include the following: outreach, assisting seniors with the application process, doing initial intakes, assisting with mailings, training other participants, using RxAssist software, and providing general administrative support. M4A will supply and distribute SenioRx intake forms to local Medicaid offices, County DHR offices, County Health Departments, Community Action offices, Departments of Mental Health, doctors' offices, hospitals, Civitans, Kiwanis Clubs, Lions Clubs, Social Security offices, and other health care organizations. M4A will work with the RC&D offices to identify potential sources for outreach and partnership. In addition, M4A will work with RC&D offices to coordinate efforts with other existing services organizations to train relevant staff. Finally, M4A will work with other organizations to develop a schedule for SenioRx outreach and assistance.

Middle Alabama Area Agency on Aging's SenioRx advisory council will consist of 2 of our Silver Haired Legislators, a pharmacist, a retired physician or nurse, a representative from a hospital in our area, a representative from the Department of Human Resources, a local legislator and a representative from the RC&D Council. Each member will draw from his/her own personal experiences and expertise to advise our agency in following the SenioRx mission statement to reach who senior citizens that need prescription drug assistance. The Silver Haired Legislators will advise us on behalf of senior citizens as well as citizens involved with state legislation. The pharmacist will contribute his expertise of prescription medications as well as possible contacts in the pharmacy community. A retired physician or nurse will provide access to the healthcare community and ideas on how to encourage health care professionals to participate in SenioRx. The staff at the Department of Human Resources works closely with low-income individuals and families and will bring that perspective and expertise to our advisory council. A local legislator will contribute community contacts and perspectives from a public administration point-of-view he representative from the RC&D Council will add suggestions on outreach and publicity to our programs.

Membership in the advisory council will last for approximately 2 years and we will meet with our Advisory Council 3 times per year. Our Executive Director will appoint each member of the Advisory Council.

GOAL

Because the high cost of prescription drugs can be a great burden, we strive to reduce economic stress, promote better health and improve quality of life of Alabama's older population by providing ways to reduce the expense of life sustaining medications.

OBJECTIVES

- Coordinate efforts among differing organizations to reach as many eligible seniors as possible.
- Establish efficient and effective service delivery.
- Establish a comprehensive knowledge base for Coordinators to easily and accurately identify available services.

GOAL

Create partnership development throughout our service area, which involves tapping into and developing working relationships with existing networks, agencies and organizations in each community.

OBJECTIVES

- Educate community, religious, civic and other groups about the SenioRx program, by contacting community leaders and attending group meetings.
- Set up training dates with organizations in our PSA.
- Use the partnership opportunities to better and more efficiently serve each region's clients.

GOAL

Provide consumer directed counseling which is a model of case management whereby the coordinator provides information about services and assistance in finding services, but the choice of service and provision of service are decided upon by the client.

OBJECTIVES

- Give each client information that is specific to his/her particular needs.
- Ensure that the client receives assistance in finding services to meet his/her particular needs.
- Encourage client autonomy for decision making pertaining to services, service providers and delivery of services.

GOAL

Use Outreach to inform the public by providing details regarding the available information channels as well as general, factual information about the need for prescription drug assistance.

OBJECTIVES

- Set up a schedule with frequent visits to senior centers in each of our five counties.
- Give presentations and participate in health fairs throughout our PSA to inform the public about SenioRx.
- Equip the RC&D coordinators with the information-related tools necessary to address program needs as well as the needs of seniors.

GOAL

Continuously educate SenioRx and M4A staff in order to develop the Program by attending meetings, workshops, and training seminars.

OBJECTIVES

- Participate in all training offered by the Alabama Department of Senior Services that relates to SenioRx.
- Research in order to find other sources of information that relates to prescription drug assistance for senior citizens.

GOAL

Maintain client records in an organized and suitable condition for monitoring client and program progress.

OBJECTIVES

- Collect thorough and accurate information from the client.
- Document information on referrals and recommendations made to the client by the Coordinator.
- Track contracts made with the client throughout the program participation period.
- Follow up with clients on a regular basis.

DEMOGRAPHIC CLASSIFICATION	TARGETING DEMOGRAPHICS in <u>FY2002</u>
Total persons, age 60 or older	2,871
Minority persons, age 60 or older	284
Low-income persons, age 60 or older	1,729
Low-income minority, age 60 or older	170*
Black persons, age 60 or older	249
Hispanic persons, age 60 or older	4
Native American, age 60 or older	12
Other minority, age 60 or older	16
Rural persons, age 60 or older	975

*This demographic was derived by taking a percentage of the total low-income minority, age 60 or older. The percentage (~10%) was derived by dividing the total number of minority persons, age 60 or older, by the total number of persons, age 60 or older:

$$284/2,871 = 0.0982$$

$$1,729 \times 0.0982 = 170$$

Planning

Evaluation

Monitoring

EVALUATION OF NEEDS

Determining the needs of the elderly in the M4A service area is a fundamental task for the Area Agency on Aging. This must first be done before any planning, coordination or resource development activities can be undertaken. The needs of older persons are identified through a number of ways. The Area Agency Director and Program Coordinators value and depend upon the advice and consultation of the Board of Directors and Advisory Council. Both the Board and Advisory Council have been involved in an ongoing strategic planning process. M4A as a planning and development agency has undergone many changes and transitions over the past two years. These transitions have facilitated many discussions regarding meeting the needs of the service delivery area and have created an open line of communication among public officials, agencies, advocates and M4A staff. The first of which is ongoing input from the Advisory Council members, contractor staffs, elected officials, service agency representatives and older persons who contact M4A. These various groups provide a wide-range resource of identifying the needs of the elderly.

The 2000 Census Figures are also utilized to determine the needs in the M4A service Area. These figures are also useful for future planning and projections. The following graph shows the 60 + population in the service area:

Age Groups (2000)									
	<u>60+</u>	<u>60-61</u>	<u>62-64</u>	<u>65-66</u>	<u>67-69</u>	<u>70-74</u>	<u>75-79</u>	<u>80-84</u>	<u>85+</u>
Blount	9,046	1,013	1,475	876	1,159	1,730	1,208	869	716
Chilton	6,926	757	1,072	655	944	1,270	1,009	663	556
Shelby	17,162	2,218	2,765	1,726	2,294	3,322	2,416	1,371	1,050
St. Clair	10,474	1,240	1,656	1,068	1,438	2,010	1,466	912	684
Walker	<u>14,071</u>	<u>1,490</u>	<u>2,128</u>	<u>1,304</u>	<u>1,733</u>	<u>2,742</u>	<u>2,180</u>	<u>1,322</u>	<u>1,172</u>
Total:	57,679	6,718	9,096	5,629	7,568	11,074	8,279	5,137	4,178

Other important factors for planning that are taken from the census data are as follows:

Age 60+ Minority (2000)	
Blount	239
Chilton	666
Shelby	1,148
St. Clair	737
Walker	<u>799</u>
Total:	3,589

Age 60+ Rural Status (1990)

Blount	5,797
Chilton	4,250
Shelby	5,589
St. Clair	5,892
Walker	<u>8,425</u>
Total:	29,953

Age 60+ Living Alone (2000)

Blount	2,168
Chilton	1,873
Shelby	3,546
St. Clair	2,412
Walker	<u>3,789</u>
Total:	13,788

**Age 60+ Below Poverty
(using 1990 poverty figures
applied to 2000 60+
population figures)**

Blount	2,243
Chilton	1,716
Shelby	2,571
St. Clair	2,008
Walker	<u>2,744</u>
Total:	11,282

All of this information will be taken into consideration when planning the future for M4A programs and other programs in the service area. This data will also be made available to public officials for their planning purposes.

Another means of identification is through M4A and contractor staff serving on boards and committees for agency and community groups. Through this contact one learns not only what services are provided but those that are needed and not yet available. This also promotes the opportunity in a committee setting to seek a collective solution.

Public Hearings are another means of determining needs of older persons. These hearings are sponsored both by M4A as well as by other agencies to review proposed services. Attended by a multitude of officials, older persons and community representatives, these forums provide a public exchange of information, ideas and suggestions concerning existing programs and services as well as those which are new and innovative.

A needs assessment survey provides an excellent means of discovering needs of older persons. This sampling of the elderly population, including not only those who are active in community life but also those who are homebound, provides direct insight into their needs. In addition, the survey encompasses wisdom and guidance from elected officials, Advisory Council membership, M4A board representatives and community service agency directors. This survey is an excellent indicator of resources and services needed to assist older persons in the planning and service area.

EVALUATION OF Program Management

The programs funded by M4A are evaluated through a number of means. Most of these evolve through the reporting processes required by M4A. These include the following:

1. Monthly service reports indicating data concerning the number and categories of older persons receiving services.
2. Monthly service reports from sites to ensure that all required and recommended programs are being presented.
3. Monthly meal and transportation reports indicating number of meals served, congregate and homebound, transportation records and contributions.
4. Monthly financial reports showing expenditures by categories for reimbursement of contractual funds.
5. Financial reviews conducted both by M4A staff and private and public auditors.
6. Annual personnel evaluations to review the effectiveness of employees in carrying out their designated responsibilities.
7. Site evaluation conducted by both M4A and the contract Nutritionist to ensure that required procedures are being used in food preparation and service.
8. Evaluations conducted by local fire and health departments to ensure that all safety and sanitation codes are enforced.
9. Drop by visits to centers by M4A staff to do outreach, build relationships and offer advice and consultation.

One problem identified by ADSS and The Board of Directors of M4A is that the previous system for program and contract evaluation is not sufficient and does not encourage performance based management. The Executive Director and M4A staff is working with ADSS staff for consultation on developing a monitoring tool to be used for contract evaluation and performance based management. The Board of Directors and Executive Director may hire an outside consultant to evaluate the programs, contract requirements, and funding formula. It is anticipated that by 2004 contracts will be issued to those competing through Request for Proposals and submitting proposals for contracts based on anticipated performance. Guidelines and scope of services will be consistent, provider will be trained and have adequate tools for performance and levels of expectation and accountability will be clearly defined.

EVALUATION OF Resource Development

Resource development is an ongoing process. There are never enough resources to meet the vast variety of program and service needs. M4A and its contractors will work collaboratively and effectively to identify public and private sources of funds, goods and services to provide individual resources and group resources to seniors.

Resource development can be broadly defined. The 2002 needs assessments and public input indicate a lack of public resources, human resources and community based resources. Public and Non-Private resources to enter into contract service agreements for title III and other services are lacking and those that do exist have little or no competition. Lack of competition can result in no accountability and complacency. M4A staff, Board, Advisory Council and ADSS will work collaboratively and with outside advice and consultation to look at the development of resources or the improvement of existing resources through better education, guidance, teamwork and expectation of documented accountability. Lack of Human Resources such as nursing staff, personal care attendants and homemakers has also been identified as a problem. M4A will continue with Project Cheers, A community based student nurse program from University of North Alabama and other health care schools to expose health care professionals to our communities. Staff will also do out reach in Middle, High School and College classes exposing students to issues concerning the elderly and how they can volunteer. M4A will also solicit student internships to assist with program development, outreach and education. Natural resources such as volunteers are underutilized in our service delivery area and could have a huge impact on the quality of life for our seniors. M4A will work with its contractors and the local communities to expand utilization of volunteers. Long range plans include hiring a volunteer coordinator to solicit, train, motivate and supervise volunteers. The Shelby and Chilton County Programs on Aging have had much success in acquiring both needed cash resources as well as the donation of volunteer hours and goods from the community. These donations may be in the form of gasoline, delivery of meals to the homebound, free meals for the elderly at restaurants, recreational items for centers and many other such donations which indicate strong community support and involvement in the programs for the elderly. These natural resources are available in every community and we plan to utilize them more in the future with better communication and collaboration.

The local governments have remained generous in providing the requested cash and in-kind resources needed for operation of the program. County governments have also been extremely helpful to the AAA during the time of transition by providing the AAA with technical assistance and utilization of existing county resources. Although increasing demands from so many far exceed the availability of local funds, the county and municipal governments have remained steadfast in providing the needed resources. This tribute indicates their awareness and willingness to respond to the needs of older persons in their respective communities.

Evaluation of Services

It is important to determine the effectiveness of the funded services making sure the needs of older persons are being met.

The following is a list of ways in which the AAA makes this determination:

1. Conducting periodic needs assessment - What needs have been met? Which needs still exist?
2. Serving on community boards and committees - provides a forum for feedback regarding current services and planning the development of future programs.
3. Participating in public hearings - conducted both by AAA and by other agencies and local governments.
4. Contacts made by both M4A and contractual staff with other agency representatives, local officials and older persons
5. Monitoring participation levels-effective programs draw increasing numbers of new clients.
6. Soliciting input from Advisory Council members.
7. Development of Community Roundtables to discuss programs, needs and resources.
8. Soliciting input from Silver Haired Legislators.
9. Seeking advice and program sharing ideas from participation in professional organizations such as the Alabama Association of Area Agencies on Aging (A4A) and other state and national affiliations.

EVALUATION OF AREA PLAN IMPLEMENTATION

There are three primary means of evaluating the implementation of the Area Plan.

The first encompasses the assessments, monitoring, reports, public hearings, contracts, board and committee participation, etc., and the various input and evaluations as to if the area plan is working in the service area.

The second is through internal tracking of the M4A's activities. It is important that M4A monitor itself on an ongoing basis to determine if objectives are being met and plans accomplished as set. The Director will work one on one with staff to ensure that they are following their goals and objectives. The M4A Staff will monitor the provision of services by its contractors through the use of weekly, monthly and quarterly reports and site visits and evaluations.

The third means is through assessments and annual evaluations conducted by the Alabama Department of Senior Services. Fiscal and Program Assessments are conducted by various staff at ADSS. The Contract Nutritionist assesses the contractors' kitchens frequently to ensure compliance. The annual M4A evaluation identifies both the strengths and weaknesses of M4A in carrying out its responsibilities for serving the area's older population.

Assurances

ASSURANCES

A. GENERAL ASSURANCES

1. Compliance with Requirements

a. The Grantee agrees to administer the program in accordance with the Act, the State Plan, the Area Plan and all applicable regulations, policies and procedures established by the Assistant Secretary for Aging, the Secretary of the Department of Health and Human Resources, or the Alabama Department of Senior Services, and with any conditions or modifications attached to the Notice of Grant Award (NGA).

b. All activities of the Grantee conform with the responsibilities of the Area Agency on Aging, laws, regulations and State policy.

2. Efficient Administration

The Grantee utilizes such methods of administration as are necessary for the proper and efficient administration of the Plan.

3. General Administration and Fiscal Requirements

a. The Grantee's uniform administrative requirements and cost principle are in compliance with the relevant provisions of 45 CFR Parts 92 and 98 except where these provisions are superseded by statute, or by later rulemaking.

b. The Grantee will: maintain the integrity and public purpose of services; disclose to the Assistant Secretary for Aging and the Alabama Department of Senior Services the identity of each non-governmental entity with which it has a contract and the nature of the contract; demonstrate that a loss or diminution in the quantity or quality of the services provided, or to be provided, under this Title III and/or VII by such agency has not resulted and will not result from such contract or such relationship; demonstrate that the quantity or quality of the services to be provided under Title III and/or VII by such agency will be enhanced as a result of such contract or such relationship; and on the request of the Assistant Secretary or the Alabama Department of Senior Services, for the purpose of monitoring compliance with this Act (including conducting an audit), disclose all sources and expenditures of funds such agency receives or expends to provide services to older individuals.

4. Area Agency Organization

The Grantee is the sole Agency in the planning and service Area responsible for the administration of the Area Plan on Aging. Where the Grantee is a multipurpose Agency, it delegates all authority and responsibility for administration of the Area Plan to a designated organizational unit for developing and administering the area plan is known as the Area Agency on Aging and is not charged with responsibilities in other areas of the organization's work.

5. Area Agency on Aging Staffing

a. The Grantee employs a full-time qualified person as an Area Agency on Aging Director with the authority and responsibility for the development and the administration of the area plan, and for the advocacy function of the Area Agency, to head the designated unit for those functions, including the management of other personnel in the unit.

b. The Grantee employs other qualified staff persons, as appropriate, to work under the supervision of the Area Agency on Aging Director to assist in the Area Agency functions.

P189

c. The Grantee supports the functions of the unit designated to develop and administer the area plan with the full resources of the Grantee, as appropriate, to ensure that the functions are performed. Subject to the requirements of a merit employment system, the Grantee gives preference to individuals age 60 or older for any staff positions in the Area Agency for which such individuals qualify.

d. The Grantee adheres to the staffing pattern in the approved area plan.

6. Grantee Personnel Policies and Procedures

a. The Grantee has an equal employment opportunity policy, implemented through an affirmative action, for all aspects of personnel administration as specified in 45 CFR Part 70.4.

b. The Grantee has provided each Area Agency employee with a copy of the standard personnel practices and procedures which have been established and implemented.

c. The Grantee standard personnel practices and procedures contain accurate written job descriptions for all positions.

d. The job descriptions for personnel in the unit designated to develop and administer the area plan cover all functions and responsibilities prescribed for the Area Agency.

e. The job descriptions clearly describe the lines of staff supervisory authority and responsibility.

f. Staff members are given clearly described functional assignments and responsibilities.

g. The Area Agency specifically assigns tasks to staff and volunteers according to their skills.

7. Staff Development

a. The Area Agency provides a program of appropriate training for all classes of positions and volunteers.

b. The Area Agency releases staff from operating responsibilities to attend training.

c. The Area Agency earmarks administrative funds for staff training.

d. The Area Agency staff attend training as requested by the Alabama Department of Senior Services.

e. The Area Agency provides training by or through the Area Agency designed to increase the skills of staff to enable the Area Agency to meet its responsibilities under the area plan.

f. The Area Agency provides its staff opportunities for continuing education and career development.

g. The Area Agency provides its subgrantees and contractors with training appropriate to their needs in performing the functions for which the grants and contracts were awarded.

8. Area Agency Responsibilities

- a. In addition to current duties, the Area Agency will serve as an effective and visible advocate by reviewing and commenting upon all plans, budgets and policies which affect the elderly and providing technical assistance to agencies, organizations, associations, and individuals serving the elderly of the planning and service area.
- b. No social services, including nutrition services, will be directly provided by the Area Agency on Aging, except where, in the judgment of the Alabama Department of Senior Services, provision of such services by the Area Agency on Aging is necessary to assure an adequate supply of such services, or where such services are directly related to the Alabama Department of Senior Services' or the Area Agency's administrative functions or where such services of comparable quality can be provided more economically by the Area Agency on Aging.
- c. The Area Agency, to the maximum extent possible, coordinates and utilizes the services and resources of other appropriate public and private agencies and organizations.
- d. The Area Agency prohibits conflicts of interest in the implementation of programs and services funded by it and has in place a mechanism to promulgate the prohibition of conflicts of interest, detect such conflicts and to remove such conflicts.
- e. The Area Agency coordinates Part B access services and legal assistance with community organizations established to benefit victims of Alzheimer's disease and the families of such victims.
- f. The Area Agency coordinates any Part B supported mental health services with mental health services provided by community mental health centers, community health centers and other public and private nonprofit agencies and organizations.
- g. The Area Agency, if there is a significant number of older Native Americans (as defined by the Native American organizations) in the PSA, conducts outreach to identify the older Native Americans, inform them of the availability of services under the Act, and increase access to services.
- h. The Area Agency compiles information on institutions of higher education in the area and makes a summary of such information available to older individuals.
- i. The Area Agency, if it receives funds from the Alabama Department of Senior Services, will assure outreach, conduct research and assist older individuals in applying for benefits under the SSI, Medicaid, and Food Stamp programs.
- j. The Area Agency, if it receives funds for Title III Parts B, C, D, E, and/or Title VII, uses the funds in accordance with the purposes of such parts.
- k. The Area Agency designates, where feasible, community focal points within the planning and service area according to statutory and regulatory requirements.
- l. The Area Agency assures that all providers of service under this Plan operate fully in conformance with all applicable federal, State and local fire, health, safety, sanitation and other standards prescribed in law or regulations.
- m. The Area Agency provides that where the State or local public jurisdictions require licensure for the provision of services, agencies providing such services are licensed accordingly.
- n. The Area Agency agrees to conduct its functions under the plan in a manner consistent with the directions, goals, objectives, policies and priorities of the Alabama Department of Senior Services.

- o. The Area Agency evaluates the needs older residents of the planning and service area have for supportive services, including nutrition services, multipurpose senior centers, legal assistance, employment of older persons, volunteerism opportunities, information & referral services, health services, home health, housing, energy assistance and alternatives to institutional care.
- p. The Area Agency in determining the extent of need in the PSA, takes into consideration the number of older individuals with the greatest social need (with particular attention to low-income minority and rural older persons) and the number of older Native Americans.
- q. The Area Agency has developed and published methods by which the priorities of services are determined.
- r. The Area Agency emphasizes activities and delivery of appropriate services to older persons with the greatest economic and social need, particularly low-income minority older persons and rural older persons, in its determination of the priorities of services.
- s. The Area Agency includes in its Area Plan or Annual Operating Element, for the fiscal year preceding the fiscal year for which the Area Plan or Annual Operating Element is prepared, an identification of the number of low-income minority older individuals in the PSA; and descriptions of the methods used to satisfy the service needs of such individuals.
- t. The Area Agency uses outreach that identifies individuals eligible for assistance under the Act, with special emphasis on rural elderly, older individuals with greatest economic or social need (with particular attention to low-income minority individuals), older individuals with severe disabilities, older individuals with limited English-speaking ability, and older individuals with Alzheimer's and related dementia and informs such individuals of the availability of assistance.
- u. The area agency on aging will coordinate planning, identification, assessment of needs, and provision of services for older individuals with disabilities, with particular attention to individuals with severe disabilities, with agencies that develop or provide services for individuals with disabilities;
- v. The Area Agency uses methods, for developing and setting objectives, which utilize the data obtained from needs analyses and studies.
- w. The Area Agency sets objectives and will meet those objectives for providing services to older persons in greatest economic and social need, particularly low-income minority older persons and rural older persons.
- x. The Area Agency uses methods, for developing and setting objectives, which involve advisory council members.
- y. The Area Agency uses methods, for developing and setting objectives, which provide an ongoing focus on the program development and operational responsibilities of the Area Agency on Aging.
- z. The Area Agency uses methods, for developing and setting objectives, which provide for an ongoing refinement and revisions of objectives.
- aa. The Area Agency maintains records of its progress toward its specified objectives.

ab. The Area Agency obtains and utilizes the views of recipients of services under the plan in connection with all matters of general policy arising in the development and administration of the area plan in each fiscal year.

ac. The Area Agency utilizes an Advisory Council, properly designated and empowered as required by Federal rules to perform the functions appropriately appointed to it.

ad. The Area Agency Advisory Council includes providers of veterans' health care (if appropriate).

ae. The Area Agency has the ability to develop and administer an area plan which will effectively guide the planning for the provision of benefits and services for older persons in the planning and service area, and which will effectively guide the provision of such services, by all who plan or provide such services in the planning and service area.

af. The Area Agency has submitted the Area Plan to the Regional Clearinghouse to be reviewed, unless it is the agency designated as the Regional Clearinghouse and no other agency has also prepared an area plan on aging or made known its intent to do so for the same planning and service area or any part of it.

ag. The Area Agency will make all amendments to the area plan in compliance with applicable instruction from the Alabama Department of Senior Services.

ah. The Area Agency provides an opportunity for a hearing to any applicant for assistance in providing a service under the area plan.

ai. The Area Agency provides each applicant for assistance in providing a service under the Area Plan information regarding its right to a hearing by the Alabama Department of Senior Services pursuant to P.L. 89-73, §307(a)(5) and §70-X-7.04 of the Administrative Code of Alabama.

aj. The Area Agency may award grants or contract to other organizations or individuals for specific service provision, but does not delegate to any other than itself the authority to award or administer funds under this plan except for the pooling of funds to purchase transportation for older persons with funds available under the Rehabilitation Act of 1973, and Titles XIX and XX of the Social Security Act, under the terms of an agreement between itself and the other administering agencies pursuant to P.L. 89-73, §306(c).

9. Eligibilities

a. The delivery of services covered by this Area Plan serve only those individuals and groups eligible under the provisions of the applicable statute.

b. No requirements as to duration of residence or citizenship will be imposed as a condition of participation in the Area Agency's program for the provision of services.

c. The Area Agency has developed and is implementing a system to ensure that benefits and services available under the Area Plan are provided in a non-discriminatory manner as required by Title VI of the Civil Rights Act of 1964 as amended, and by the Age Discrimination Act of 1967, as amended.

d. All recipients of funds from the Area Agency are required to operate each program activity so that, when viewed in its entirety, the program or activity is readily accessible to and usable by persons with disabilities. Where structural changes are required, these changes shall be made as quickly as possible in keeping with 45 CFR 84.

e. The Area Agency will, to the extent practicable, pursue activities to increase access to Title III and VII services by Native Americans and will specify the ways in which the Area Agency intends to implement the activities.

f. The Area Agency will, to the maximum extent feasible, coordinate the services of Title III and Title VI within the planning and service area.

g. The Area Agency utilizes published methods to carry out the preferences to older individuals with the greatest economic or social need, particularly low-income minority older persons and rural older persons, in the provision of services.

h. The Area Agency ensures that nutrition services will be available to older individuals and to their spouses, and may be made available to individuals with disabilities who are not older individuals but who reside in housing facilities occupied primarily by older individuals at which congregate nutrition services are provided.

i. The Area Agency has implemented such regulations, standards and procedures as are necessary to meet the requirements on safeguarding confidential information under relevant program regulations.

j. The Area Agency agrees to furnish such reports and evaluations to the Alabama Department of Senior Services as may be specified.

k. The Area Agency agrees to provide access to all records and activities related to the functions and responsibilities of the Area Agency and its grant or contract recipients and the recipients of services under the plan to representatives of the Alabama Department of Senior Services, the Assistant Secretary for Aging, the General Accounting Office, The Examiners of Public Accounts and any others identified by the Alabama Department of Senior Services as legally authorized to have such access.

l. The Area Agency agrees to provide requested information to other organizations and persons consistent with provisions of the Freedom of Information Act and limited only by the Confidentiality requirements prohibiting the release of any information which would disclose the identity of any recipient of services or of any individual who may have applied for or inquired about their eligibility for such services unless such person gives their written consent for the sharing of that information or a court order is obtained.

10. Grants and Contracts

a. The Area Agency has implemented a standardized procedure for the awarding of grants and contracts under Titles III and VII.

b. The Area Agency on Aging assures that funds received under this title will not be used to pay any part of a cost (including an administrative cost) incurred by the area agency on aging to carry out a contract or commercial relationship that is not carried out to implement this title.

c. The Area Agency on Aging assures that preference in receiving services under this title will not be given by the Area Agency on Aging to particular older individuals as a result of a contract or commercial relationship that is not carried out to implement this title.

d. The Area Agency expends, of the amount allotted for Part B to the PSA, an adequate proportion, as required by Sections 306(a)(2) and 307(a)(2)(c) of the Older Americans of 1965, as amended, for access services, in-home services and legal assistance and will report annually the amount of funds expended for each category during the fiscal year most recently concluded.

- e. The Area Agency has developed standardized procedures and criteria for review of applications for funds under the area plan.
- f. The Area Agency has published and distributed to interested organizations and individuals the standardized application procedures and review criteria.
- g. The Area Agency requires specifically measurable and verifiable objectives in grants awarded under the Area Plan.
- h. The Area Agency has implemented a thorough and efficient system for effective management of grants and contracts.
- i. The Area Agency's grants and contracts management system routinely identifies and provides appropriate management actions to address, on a timely basis, the performance improvements needed in each grant and contract to assure that older persons are the recipients of the most appropriate services and benefits possible.
- j. The Area Agency includes in agreements with each service provider the following requirements: that the provide specify how the provider intends to satisfy the needs of low-income minority and rural individuals in the area served; and that the provider attempt to serve low-income minority and rural individuals in accordance with their need.
- k. The Area Agency will not permit preference in receiving any Title III or VII services to be given to any individual as a result of a contract or commercial relationship that is not to implement Title III or VII.
- l. The Area Agency actively addresses in each grant and contract appropriate steps to be taken to enable the grantee or contractor to continue the services or benefits for older persons beyond the grant or contract period with reduced funds or no funds under the area plan, if feasible.
- m. The Area Agency utilizes an established procedure for regularly monitoring grants and contracts under the area plan.
- n. The Area Agency obtains written financial and program reports from grantees and contractors as part of its monitoring procedure.
- o. The Area Agency monitors each congregate nutrition site and each provider of home-delivered nutrition services at least once each month.
- p. The Area Agency utilizes an established procedure for regularly assessing grantees and contractors under the area plan.
- q. The Area Agency assessment procedure includes a guide to assessing the progress and problems of grantees and contractors in attaining specified performance levels.
- r. The Area Agency informs grantees and contractors of scheduled assessments in advance of the site visit, and identifies the topics of the assessment. ["Site" refers to any grantee or contractor location, not just "nutrition sites."]
- s. The Area Agency provides the grantees and contractors reports of each assessment within thirty (30) days of the conclusion of the on-site assessment.
- t. Appropriate corrective action is taken by the Area Agency to eliminate or reduce problems identified in monitoring and assessing grantees and contractors.

- u. The Area Agency assigns specific staff members the responsibility to assure that grantees and contractors take the required corrective actions as scheduled.
- v. The Area Agency evaluates each grantee's and contractor's performance prior to making any subsequent award of a grant or contract.
- w. The Area Agency provides each grantee and contractor with appropriate technical assistance to enable it to accomplish required corrective actions.

B. PROGRAM SPECIFIC ASSURANCES

1. The Area Agency provides for establishing and maintaining information and referral services in sufficient numbers to assure that all older individuals in the planning and service area will have reasonable convenient access to such adequate information and referral services.
2. With respect to the Long-Term Care Ombudsman program, the Area Agency assures that statutory and regulatory provisions concerning support of Alabama Department of Senior Services activities in the establishment and operation of the program, defining "similar adult care homes", appointing an ombudsman, access requirements, confidentiality and disclosure of information, compliance with the State Ombudsman Act and a statewide reporting system are being met.
3. The area agency on aging, in carrying out the State Long-Term Care Ombudsman program under section 307(a)(9), will expend not less than the total amount of funds appropriated under this Act and expended by the agency in fiscal year 2000 in carrying out such a program under this title.
4. With respect to nutrition services, the Area Agency assures that statutory and regulatory provisions concerning nutrition services, selection of nutrition services providers, special requirements for nutrition services providers and food requirements for all nutrition services providers are met.
5. The Area Agency assures that projects will to the maximum extent practicable, reasonably accommodate participants described in P.L. 89-73 §339(2)(A)(iii), that is, persons with special dietary needs.
6. With respect to multipurpose senior centers, the Area Agency assures that all statutory and regulatory requirements concerning the purpose of making awards; health; safety and construction requirements; federal labor standards; length of use of an acquired or constructed facility; special conditions for acquiring by purchase, or constructing a facility; prohibition on sectarian use of a facility; and funding use requirements are met.
7. With respect to legal assistance the Area Agency assures that statutory and regulatory provisions concerning purpose of making the awards; conditions legal assistance providers must meet; case priorities; and limitations on information about income and resources are met.
8. With respect to adult protective services, the Area Agency assures that it will conduct a program consistent with the Alabama Adult Protective Services Act; and coordinated with the Department of Human Resources for public education to identify and prevent abuse of older individuals; receipt of reports of abuse of older individuals; active participations of older individuals participating in programs under this Plan through outreach, conference, and referral of such individuals to other social service agencies or sources of assistance where appropriate and consented to by the parties to be referred; and referral of complaints to the Department of Human Resources where appropriate; will not permit involuntary or coerced participation in the program of services described in this clause by alleged victims, abusers, or their households; and all information gathered in the course of receiving reports and making referrals shall remain

confidential unless all parties to the complaint consent in writing to the release of such information, except that such information may be released to a law enforcement agency or the Department of Human Resources.

C. FISCAL SPECIFIC ASSURANCES

1. The Area Agency will spend in each fiscal year, for services to older individuals residing in rural areas in the planning and service area assisted under this Title, an amount not less than 105 percent of the amount expended for such services (including amounts expended under the old Title V and Title VII in FY 1978).
2. The portion of the Area's allotment not used for paying the cost of administration of the Area Plan will be available only for paying such percentage as the Area Agency determines, but not more than 90 percent of the cost of social services and nutrition services authorized under Title III, Parts B and C, in the planning and service area.
3. The Area Agency will fulfill all requirements for meeting its non-federal share.
4. The Area Agency will use its allotment for Area Plan administration to pay not more than 75 percent of the costs of administering the Area Plan.
5. The Area Agency maintains sufficient fiscal control and accounting procedures to assure proper disbursement of and accounting for all funds awarded for the implementation of this plan.
6. The Area Agency will support the fiscal control requirements placed on the Alabama Department of Senior Services by providing satisfactory assurance that such fiscal control and fund accounting procedures will be adopted as may be necessary to assure proper disbursement of, and accounting for, federal and state funds paid under this title to the Area Agency, including any such funds paid to the recipients of grants or contracts.
7. The Area Agency agrees to comply with all guidelines for implementing Title III and VII of the Older Americans Act of 1965, as amended, and with the Alabama Department of Senior Services policies and procedures established to meet responsibilities placed on it by the Administration on Aging.
8. The Area Agency agrees to adhere to the staffing plan established by the Area Agency in its plan, or obtain prior written approval of the Alabama Department of Senior Services for any deviation.
9. The Area Agency agrees to adhere strictly to the provisions of the Area Plan regarding services to older persons in the planning and service area unless waived by the Alabama Department of Senior Services.
10. The Area Agency agrees to pursue a policy of freedom of information.
11. The Area Agency agrees to assure that all contracts, both public and private, for delivery of service or other related activities, will be limited to one year.
12. The Area Agency on Aging agrees to request approval of the Alabama Department of Senior Services for budget revisions of any nature.
13. The Area Agency agrees to monitor the fiscal accountability, at least annually, and by qualified staff of its own, of each service provider which has received, from the Area Agency, funds administered by the Alabama Department of Senior Services.

14. The Area Agency agrees that, if the Alabama Department of Senior Services enters into a contract for the delivery of prepared food and accessories to nutrition services sites on behalf of the Area Agency at the request of the Area Agency, the approved cost of meals to be certified will not be granted in cash; that under the terms of such contract, at the Area Agency's and the vendor's certifications, the Alabama Department of Senior Services will pay the vendor for the meals provided at the price provided in the contract; and that adjustments will be made as provided for in the contract.

15. The Area Agency agrees that, if the Alabama Department of Senior Services enters into a contract for the delivery of any service on behalf of the Area Agency at the request of the Area Agency, the approved cost of the services to be certified will not be granted in cash, that under the terms of such contract, at the Area Agency's and the vendor's certifications, the Alabama Department of Senior Services will pay the vendor for the services at the price provided in the contract, and that adjustments will be made as provided for in the contract.

Appendices

How to File a Title III Complaint

This is in response to your request for information on how to file a complaint under title III of the Americans with Disabilities Act.

Title III prohibits discrimination based on disability in public accommodations. Private entities covered by title III include places of lodging, establishments serving food and drink, places of exhibition or entertainment, places of public gathering, sales or rental establishments, service establishments, stations used for specified public transportation, places of public display or collection, places of recreation, places of education, social service center establishments, and places of exercise or recreation. Title III also covers commercial facilities (such as warehouses, factories, and office buildings), private transportation services, and licensing and testing practices.

If you feel you or another person have been discriminated against by an entity covered by title III, send a letter to the Department of Justice, at the address below, including the following information:

- Your full name, address, and telephone number, and the name of the party discriminated against;
- The name of the business, organization, or institution that you believe has discriminated;
- A description of the act or acts of discrimination, the date or dates of the discriminatory acts, and the name or names of the individuals who you believe discriminated; and
- Other information that you believe necessary to support your complaint. Please send copies of relevant documents. Do not send original documents. (Retain them.)

Sign and send the letter to the address below:

U.S. Department of Justice
950 Pennsylvania Avenue, NW
Civil Rights Division
Disability Rights - NYAVE
Washington, D.C. 20530

The Disability Rights Section will consider your complaint and inform you of its action. The office will investigate the complaint and determine whether to begin litigation. We will not necessarily make a determination on each complaint about whether or not there is an ADA violation. If we believe there is a pattern or practice of discrimination, or the complaint raises an issue of general public importance, we may attempt to negotiate a settlement of the matter or we may bring an action in U.S. District Court. Any such action would be taken on behalf of the United States. We do not act as an attorney for, or representative of, the complainant.

You also have the option of filing your own case in U.S. District Court.

Depending on the nature of your complaint, other information would also be helpful to our investigation:

1. Small businesses have limited protection from lawsuits. Except with respect to new construction and alterations, no lawsuit can be filed concerning acts or omissions that occur before --

1) July 26, 1992, by businesses with 25 or fewer employees and gross receipts of \$1,000,000 or less.

2) January 26, 1993, by businesses with 10 or fewer employees and gross receipts of \$500,000 or less.

2. The name or names of the individuals or entities who have an ownership and/or managerial interest in each facility or business that is the subject of your complaint, with phone numbers and addresses, including zip codes, if you have them.
3. Information specifying whether the facility is owned and/or operated by a private entity or a state or local government.
4. The nature of the activity or service provided by the business.
5. If you are alleging failure to remove architectural barriers, a description, including as much detail as possible, of the barriers. If possible, please provide pictures, videotapes, diagrams, or other illustrations that accurately set forth the alleged violation.
6. Any suggestions for remedying the alleged violations of the ADA.
7. Information about whether you have filed a related complaint with a U.S. Attorneys Office, or any other Federal, State, or local agency, or any court, or whether you intend to file such a complaint.

Privacy Act Statement

The authority for collecting this information is contained in 42 U.S.C. 12188(b). We need this information in order to investigate your complaint. The personal information will be used primarily for authorized civil rights compliance and enforcement activities conducted by the Department of Justice. The Department will not disclose the name of, or other identifying information about, an individual unless it is necessary for enforcement activities against an entity alleged to have violated federal law, or unless such information is required to be disclosed under the Freedom of Information Act, 5 U.S.C. 552, or as is allowed through the publication of a routine use in accordance with the Privacy Act of 1974, 5 U.S.C. 552a. To further the Department's enforcement activities, information we have about you may be given to appropriate Federal, State, or local agencies. Additional disclosures of information may be made: to Members of Congress or staff; to volunteer student workers within the Department of Justice so that they may perform their duties; to the news media when release is made consistent with the Freedom of Information Act and 28 C.F.R. 40.2; and to the National Archives and Records Administration and General Services Administration to perform records management inspection functions in accordance with their statutory responsibilities. Furnishing of the requested information is voluntary except that the failure to provide such information may result in our being unable to process your complaint.

Disaster Readiness and Resource Deployment Plan
for the
Middle Alabama Area Agency on Aging

A. Background - The Middle Alabama Area Agency on Aging is responsible for the planning, coordination and contract management of a variety of social-type services for older persons in Blount, Chilton, Shelby, St. Clair and Walker counties.

In the event of major disasters, either man-made or natural, the Area Agency on Aging, in concert with its Advisory Council and County Contractors in the Planning and Service Area, intends to be able to respond with its resources in coordination with other major disaster relief agencies. These agencies include but are not limited to the Federal Emergency Management Agency, the Department of Human Resources and the Red Cross.

The Middle Alabama Area Agency on Aging has an obligation to the area to assure that each county's resources are available to the citizens to assist in alleviating the effects of a disaster. The M4A contractors stress that they do not view themselves in a leadership role. Rather, they view their role that of supplementing the efforts of the major disaster relief agencies.

Disasters may include events such as tornadoes, floods, fires, airplane crashes, and industrial accidents. Life and community property are grossly endangered by these occurrences.

In the event of disaster, the County Contractors will make its resources available to all individuals, regardless of age. However, after the initial stages of the disaster have passed and in coordination with the major disaster relief agencies, the County Contractor will focus its attention on the needs of elderly disaster victims.

B. Plan Rationale - The rationale for the provision of this assistance has two basic reasons:

1) To add the resources of the local aging program to those services traditionally being utilized for short and long term resorption and rehabilitation of disaster victims, regardless of age in the initial stages.

2) To provide a visible advocate for elderly disaster victims who are often traumatized more deeply by disaster and who fail to function smoothly in the post-disaster period. This

condition increases already insurmountable burdens on agencies seeking to bring some order and relief to the victims.

C. Plan Format - This plan reflects and is based upon the five individual county disaster readiness plans developed by Area Agency on Aging staff personnel.

The text that follows will present a listing of available resources contained by aging programs in each county. In addition, this plan will set forth the procedures for using these resources in times of disaster.

II. Resource List

Current Use & Adaptation for Times of Disaster

A. Basic List - In general, the primary resources and services available for disaster use are as follows:

- 1) Staff: Paid and volunteer personnel experienced in working with and for older persons and in dealing with complicated administrative procedures.
- 2) Meals: These portable meals may be served in a variety of settings.
- 3) Transportation: Each county has a varying number of cars and 12-15 passenger vans manned by paid drivers and substitutes.
- 4) Older Volunteers: With proper training and supervision, the older persons currently involved with aging program have the capability to perform many tasks needed during the post-disaster restorative period.

B. Current Use and Disaster Adaptability - These are as follows:

- 1) Staff: Current Use - Paid and volunteer staff are currently involved in operating the aging program.

Disaster Adaptability - These staff members, both paid and volunteer, will be available to the rehabilitative disaster centers. Following the disaster, the lead agency will contact the County Program on Aging Director who has been designated by M4A to implement services in their county. The POA Director in turn will alert the POA Disaster Team and the AAA Director. The AAA Director will notify ACOA concerning the needs and resources necessary to be utilized from aging resources. Staff understands that adequate documentation of all activities should be kept.

The Disaster Team will be ready to respond with the number of workers and resources needed for assistance as outlined in the County Program on Aging Disaster Plan. The County POA Assistant Director will have the responsibility to coordinate these activities in the absence of the Director.

The AAA Director, Title III Social Services/Nutrition Coordinator and other AAA staff as designated by the AAA Director will be available for assistance in times of disaster. As needed, they will provide technical assistance and guidance during the initial steps after the disaster as well as during the post-disaster restorative period.

Staff capabilities include outreach, assisting elderly to reach disaster centers and carrying out appropriate activities there. These include but are not limited to performing intake, assisting with completion of required forms and other administrative duties, serving meals and driving vehicles.

Paid contractor staff in Blount, Chilton, Shelby, St. Clair and Walker Counties include County Directors and their assistants, Center Managers and Van Drivers.

Volunteer staff will include a team of volunteers in each county who will be trained to respond in time of disaster for use in serving meals and other activities as directed.

2) Meals - Current Use - Each of the five counties operates a central kitchen which prepares lunch meals for their senior citizens. These meals are provided to eligible participants in a congregate or homebound setting. At the present time, approximately 1,165 lunch meals are being served daily in the five county area. Meals contain 1/3 of the minimum daily requirement for balanced nutrition and may include milk, fruits or fruit juices, vegetables, meats and meat substitutes, breads and desserts.

Operations for meal preparation are conducted at the following locations for each county:

Blount-----Oneonta
Chilton-----Clanton
Shelby-----Columbiana
St. Clair-----Ragland
Walker-----Oakman

These locations then dispense meals to the Senior Centers for distribution to congregate or homebound. The centers for each county are as follows:

Blount-----Nectar, Oneonta, Blountsville & Snead
Chilton-----Clanton, Maplesville & Thorsby
Shelby-----Columbiana, Calera, Alabaster,
Montevallo, Vincent & Wilsonville
St. Clair-----Ashville, Odenville, Pell City,
Ragland & Steele
Walker-----Carbon Hill, Cordova, Jasper,
Oakman & Sumiton

Meals are tested for proper temperature before leaving the central kitchen and again at the center before serving. The required temperature for starved hot foods is 140 degrees and for starved cold foods is 45 degrees F. Coffee and tea are not transported but are prepared at the center.

Eating utensils, individually wrapped, are provided. Sanitized portion size utensils used for serving are also provided.

Disaster Adaptability - These portable lunch meals (not including tea or coffee) may be made available to disaster victims as designated in the County POA Disaster Plan during the initial emergency. After this period, they will be used solely for elderly disaster victims or will be returned to their regular use.

Meals must be served immediately after they are delivered. It is important to stress the need for immediate attention to the serving of these meals. Inappropriately high or low temperatures can lead to bacteria growth and possible widespread food poisoning.

All possible precautions should be taken to prevent this.

Current Senior Centers may be selected for use as temporary disaster centers or shelters. Other buildings may be selected also by the lead agency. Meals may be served at these designated sites. Disaster centers may be provided with cold (box) lunches when appropriately arranged with the central kitchen and POA Coordinator.

Home delivered meals may be arranged on a limited basis, depending on feasibility of delivery.

Meals are readily available on a Monday through Friday basis. In the event of a weekend disaster or need for meals on Saturday or Sunday, frozen meals will be made available.

Supportive services available at current centers will be easily adaptable for use in times of disaster, if the senior centers are designated as disaster centers. These supportive services include counseling and social service casework; information and referrals; fellowship; and recreation.

3) Transportation - Current Use - Current use of vehicles occurs during daytime hours. Trips are provided to older persons wishing to visit senior centers, shopping areas, doctors, and social welfare services. Paid drivers and approved substitutes are used. Volunteer drivers will use private vehicles. These volunteers may include older volunteers.

Disaster Adaptability - Volunteers, substitutes and paid drivers will be available for three days following the disaster and then for elderly victims only, or returned to regular use.

4) Older Volunteers - Current Use - Volunteers are used in a variety of ways to enhance services through the aging program.

Disaster Adaptability - Each County Contractor will attempt to recruit and organize a team of volunteers capable of providing assistance during a disaster. Suggestions for these services may include serving and preparing food; manning distribution stations for clothing, blankets, housewares, etc.; and sorting and repairing donated material goods. In addition, a list of older persons who might wish to provide temporary housing for elderly victims can be initiated and include person/capacity of each home.

III. Plan for Resource Deployment in Times of Disaster

The lead agency will take the initiative to ensure that the lines of communication established by this plan remain open and operative.

Communications with the AAA, the County Contractor/Director, local officials, ACOA and major disaster relief agencies are the key to the initial placement of AAA resources into the disaster area of a given county. When a disaster occurs, AAA personnel and others should be alert to changes in the telephone communications system. If this system is diables, communications may be through law enforcement or other channels.

The M4A has designated each County Contractor/Director upon being contacted by the lead agency to begin steps to initiate the POA Disaster Plan. If this should occur during the normal working hours, special care should first be taken to ensure the health and safety of the participants already at the centers. If this should occur after normal working hours or on weekends, the County Director should begin immediately to call in the Disaster Team and arrange for the Disaster Plan to be implemented.

The POA Disaster Team will have primary responsibility for providing supplementary assistance in the initial stages of a disaster. The Disaster Team will consist of the following staff: POA Director, Assistant Director and appointed Aging Program staff including the center managers.

The POA Disaster Team will coordinate its efforts with the Department of Human Resources. DHR will familiarize the team members with DHR resources and procedures.

When a disaster occurs, the Disaster Team will meet in the POA's office. Team members will then contact DHR for further instructions. The extent of the intervention by POA will be determined by a needs assessment by DHR. M4A should be notified of these needs when the assessment is made and kept informed as

changes occur. M4A will immediately notify ACOA of the disaster and share known information including the results of the initial assessment. If needed, M4A will assist in alerting other offices and officials in the (local) county aging network of the event and the assessment.

Meals and transportation will be primary duties divided among the team. Members whose duties concern meals will include an assessment of the number and the needs of the homebound elderly. DHR may request additional duties of the team members.

The county's Emergency Call Plan should be placed in effect at once. The Disaster TEam members wil inform callers how they may be of assistance. The Disaster Team will provide emergency services to all citizens, not just the elderly. Later, the team will carefully assess the impact of the disaster on the elderly in terms of the number of affected senior citizens, special needs and utility damage and report to their individual assessment of the adequacy of services being delivered immediately following the disaster.

It is important for all to properly document the steps taken. In particular, M4A will arrange to access immediately unobligated funds. Verifying need and use of these funds are essential. M4A will provide information needed for each County Coordinator to conduct disaster preparedness training on a regular basis. This will include how and what to document.

Each County POA Contractor will offer, if needed, assistance in all three stages of a disaster: emergency, relief and recovery. The following resources are available to supplement existing disaster services:

1) Meals

Over a period of a year (October 1, to September 30) the POA will provide up to fifty meals at no cost. The meals will primarily noon-time meals. Paper products will be provided. Meals will need to be picked up and delivered to the designated point in the County between the hours of 10:00 and 12:00 p.m. Frozen meals will be made available for Saturday and Sunday.

DHR may either select a location for meals delivery and temporary housing of its own or choose from among the senior centers located int he county. A senior center may serve as an alternate meal site for another senior center deemed inoperative.

2) Transportation

POA passenger vans and cars will be brought to the POA office. The Director and/or Assistant Director will have keys to each vehicle. The vehicles may be driven by the POA staff or other individuals designated by the Director or by the disaster

relief agency. For the purpose of insurance, all drivers must have a valid license and be authorized to drive by M4A and POA.
Disaster Readiness and Resource Deployment Plan

for the

Middle Alabama Area Agency on Aging

A. Background - The Middle Alabama Area Agency on Aging is responsible for the planning, coordination and contract management of a variety of social-type services for older persons in Blount, Chilton, Shelby, St. Clair and Walker counties.

In the event of major disasters, either man-made or natural, the Area Agency on Aging, in concert with its Advisory Council and County Contractors in the Planning and Service Area, intends to be able to respond with its resources in coordination with other major disaster relief agencies. These agencies include but are not limited to the Federal Emergency Management Agency, the Department of Human Resources and the Red Cross.

The Middle Alabama Area Agency on Aging has an obligation to the area to assure that each county's resources are available to the citizens to assist in alleviating the effects of a disaster. The M4A contractors stress that they do not view themselves in a leadership role. Rather, they view their role that of supplementing the efforts of the major disaster relief agencies.

Disasters may include events such as tornadoes, floods, fires, airplane crashes, and industrial accidents. Life and community property are grossly endangered by these occurrences.

In the event of disaster, the County Contractors will make its resources available to all individuals, regardless of age. However, after the initial stages of the disaster have passed and in coordination with the major disaster relief agencies, the County Contractor will focus its attention on the needs of elderly disaster victims.

B. Plan Rationale - The rationale for the provision of this assistance has two basic reasons:

1) To add the resources of the local aging program to those services traditionally being utilized for short and long term resorption and rehabilitation of disaster victims, regardless of age in the initial stages.

2) To provide a visible advocate for elderly disaster victims who are often traumatized more deeply by disaster and who fail to function smoothly in the post-disaster period. This

MIDDLE ALABAMA
AREA AGENCY ON AGING
ADVISORY COUNCIL BY-LAWS

Article I NAME

The organization shall be named the Middle Alabama Area Agency on Aging Advisory Council.

Article II PURPOSE AND OBJECTIVES

The purpose of the Middle Alabama Area Agency on Aging Advisory Council shall be to serve as an instrument for community resources pertaining to aging in the five-county area. The area includes Blount, Chilton, Shelby, St. Clair, and Walker Counties.

The objectives of this organization are:

A. to present a unified voice in securing funds, both public and private, to support and increase services to the aging;

B. to serve as a local clearinghouse for information on existing programs and funding sources available for services to aging and development of programs related to coordinated services for the aging;

C. to identify legislative needs, local resource needs, and problems in implementation of programs, and to make those needs known to appropriate individuals and organizations;

D. to review and make recommendations concerning grant applications for projects related to the aging in this area.

E. to advise relative to: developing and administering the area plan; conducting public hearings; representing the interest of older persons; and reviewing and commenting on all community policies, programs and actions which affect older persons with the intent of assuring maximum coordination and responsiveness to older persons.

Article III MEMBERSHIP

The Council shall be composed of a thirty representatives from the five-county area with representation consisting of six members from each county.

A. The Council shall include individuals and representatives of community organizations who will help to enhance the leadership role of the area agency in developing community-based systems of services. The advisory council shall be made up of:

1) More than 50 percent older persons, including minority individuals, who are participants or who are eligible to participate in programs under this part:

2) Representatives of older persons:

3) Representatives of health care provider organizations, including providers of veteran's health care (if appropriate):

4) Representatives of supportive services providers organizations:

5) Persons with leadership experience in the private and voluntary sectors:

6) Local elected officials: and

7) The general public.

B. Appointments to the Advisory Council are approved by the Middle Alabama Area Agency on Aging Board. The M4A Executive Director will recommend appointments in accordance with federal law and the Older Americans Act. These persons shall be broadly representative and be knowledgeable and experienced in the special needs of the elderly. Input from the counties, including but not limited to the contractors, will be considered when making these recommendations. Persons employed by M4A contractors are not eligible to serve as council members.

C. The term of membership is two years. Members in good standing may considered for reappointment.

D. Any member who is absent from three consecutive meetings without a valid reason, shall forfeit his/her membership.

Article IV OFFICERS

A. There will be five officers. These officers shall consist of a Chairman, Three Vice Chairmen, and a Secretary. One person from each county will serve as an officer.

B. The duties of the officers are as follows:

1. The Chairperson shall preside at all meetings of the AC; represent the area on state committees involving the aging; and call special meetings at any time necessary. The Chairperson will vote only in case of a tie.

2. The Vice Chairperson (Administration) shall have the responsibility of coordinating the advice of activities involving contracts, equipment and budget. He will assume the obligations and authority of the Chairperson in the absence of the Chairperson, and to perform other duties as directed by the Chairperson.

3. The Vice-Chairman (Service) shall have responsibility for coordinating the advice of activities involving needs assessments, services reporting, research and surveys.

4. The Vice-Chairman (Advocacy) shall have responsibility for coordinating the advice of activities involving liaison endeavors for elderly with other agencies and organizations.

5. The Secretary shall record and distribute the minutes of all AC meetings, send out notices of meetings to the membership, take care of all correspondence for the Council and turn over books and records in good order to the succeeding secretary.

C. Officers shall be elected at the fourth quarter meeting and will begin the term of office with the first quarter of the new fiscal year.

1. Officers shall be elected by a majority vote of those present and eligible to vote.

2. Officers shall serve for a two year term and may not succeed themselves.

D. A vacancy in any principal office, because of death, resignation, or otherwise, shall be filled by appointment of the Chairman for the unexpired portion of the term. A vacancy in the office of the Chairman shall be

the filled by the Vice Chairman (Administration) for unexpired portion of the term.

Article V

COMMITTEES

A. Ad Hoc Committees may be established by the Council to assist in the discharge of its responsibilities. Full reports of committee meetings will be made given at the next meeting of the Council following the meeting of the committee.

B. The Election Committee shall consist of one member of the Area Advisory Council from each county and may be appointed by the Chairman; the Chairman of the Advisory Council shall not serve as a member of this committee.

Article VI MEETINGS

A. The Area Advisory Council on Aging shall meet on a date selected by the Chairman. The time and location of such meeting will be designated by the Chairman.

B. Notice of meetings, stating the date, time and location shall be mailed to each member at least seven (7) days before the meetings.

C. Meeting procedures shall follow the most recent revision of Robert's Rules of Order. The affirmative vote of a majority of the members present shall be sufficient to determine any action to be taken by the Council except for amendments to the by-laws (see Article VIII).

D. Any member making a report at a regularly scheduled Council meeting shall present a written account of that report to the Secretary.

Article VII

QUORUM

A quorum shall consist of a minimum of 10 members present and voting.

Article VIII

BY-LAWS

Amendments to these bylaws shall be made by the Middle Alabama Area Agency on Aging in accordance with federal regulations.

changes

1. The Advisory Council may recommend in the bylaws provided these changes are affirmed by two thirds of the voting members present at a regular meeting and duly recorded in the Council's minutes.

all

2. Recommended changes shall be mailed to members in good standing seven (7) days prior

to the meeting.

<input type="checkbox"/> Other (write in) _____	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

2. How do you find out about programs and services for older adults in your area?
(Check all that apply.)

- | | | | | |
|---|-----------------------------------|-------------------------------------|--|--------------------------------|
| <input type="checkbox"/> Telephone Directory | <input type="checkbox"/> Relative | <input type="checkbox"/> Newspaper | <input type="checkbox"/> Church | <input type="checkbox"/> Radio |
| <input type="checkbox"/> Doctor | <input type="checkbox"/> Friend | <input type="checkbox"/> Television | <input type="checkbox"/> Social Service Agency | |
| <input type="checkbox"/> Other, please specify: _____ | | | | |

3. Have you ever been to a senior center in your community? Yes No Don't Know

4. Have you ever received services (such as a meal, home services or information) from your area agency on aging or the folks at your local senior center?

- Yes
- No
- Don't Know

5. If you were not able to completely take care of yourself, is there a family member or friend who would take care of you? Yes No Don't know.

6. If there is someone to help you to continue to live independently, is that person...

- Your spouse?
- Your daughter or son?
- Another relative (not your daughter or son)?
- A friend/non-relative?

7. Would you be interested in volunteering to help senior citizens in your community? Yes No Don't Know

*If yes, you would volunteer, please include your name and phone number where we can contact you.

Name _____

Phone number (____) _____

8. Are you currently working? Yes, Full Time Yes, Part Time No

9. In what year were you born? _____

10. What is your gender? Male Female

- African American/Black
- Asian
- Caucasian/White
- Hispanic
- Native American
- Other

12. In which county do you live: _____

13. What is your current marital status?
- Married
 - Separated
 - Divorced
 - Widowed
 - Single/Never Married

4. What is your household monthly income?
- Less than \$738
 - \$738 - \$1,108
 - More than \$1,108
 - I don't know

5. What is your zip code? _____

Thank you very much.

Your input will make a real difference in the lives of many of your friends and family.

NOTICE OF PUBLIC HEARING

The Local Area Plan (2003-2006) for the Middle Alabama Area Agency on Aging can be reviewed at 307 7th Street, Clanton, AL 35045 . Phone number: 205-280-4175. July 24 - July 31 from 8:30AM until 3:30PM, Open Monday - Friday. Written comments will be accepted through July 31. For more information contact: Julie Miller at jmiller@adss.state.al.us.

SUMMARY: The Alabama Department of Senior Services (ADSS) announces a public hearing on the drafting of the State Plan on Aging for October 1, 2003 through September 30, 2006. The State Plan includes all assurances and plans to be conducted by the ADSS under provisions of the Older Americans Act, as amended, during the period identified.

The ADSS is mandated by Congress to develop and administer the State Plan on Aging in accordance with all requirements of the Act, and is primarily responsible for the coordination of all State activities related to the purposes of the Act, i.e., the development of comprehensive and coordinated systems for the delivery of supportive services and serving as the effective and visible advocate for senior citizens in Alabama.

DATES: The public hearing will be held in Montgomery, Alabama on Friday, July 26, 2002 from 2:30 p.m. to 5 p.m.

LOCATION: The public hearing will be held at the State Capital Building, in the Auditorium found at the Union Street entrance of the Capitol in Montgomery.

***** Any member of the public wishing to attend and requiring special services, such as sign language interpretation or other ancillary aids, should contact the ADSS at least five (5) working days prior to the hearing by telephone or electronic mail at the respective contact points listed immediately below.

COMMENT: Comment period on this plan is limited to July 26-August 1, 2002. Copies of the drafted State Plan on Aging will be made available at the hearing by the Alabama Department of Senior Services, on the Department website or by contacting ADSS office as outlined below for a copy after the public hearing.
